(PITTSBURGH COMMUNICATIONS FOUNDATION)

Re Pittsburgh letter to Bureau dated 11/18/68.

Regarding the matter of the Urban League of Pittsburgh, and its request for funds from a Pittsburgh charitable foundation, discussed in relet, source advised

Funds for the Urban League are actually contributed to the National Urban League and a portion is then returned to the local unit. The National Urban League has been advised that funds from the Pittsburgh Foundation, in the amount of \$450,000, will be delayed until the local unit submits a satisfactory proposal.

Attached is a prospectus and a letterhead of the newly formed Pittsburgh Communications Foundation (PCF). As indicated in the prospectus, one of the objectives of the PCF will be study and research concerning the mass media and its relation to civil disorders.

He is of the opinion that the PCF will probably develop information of interest to this Bureau, and if so, he will promptly make it available. Source also advised [REDACTED]

As of interest, one of the primary items to be considered by the PCF is the present method of paying news reporterson television by the amount of film footage actually shown on television newscasts. It is realized that this method of payment has resulted in inaccurate reporting and another method of payment will be sought.

The PCF will be considered for possible future counterintelligence measures.

ENCLOSURE

PROSPECTUS

- Project:
- a) Establishment of the newly-chartered Pittsburgh Communications Foundation as an effective arm of the mass-communications media and professions here, and
 - b) Implementation of an initial significant PCF program: the creation of an Institute of Urban Communications as recommended by the National Advisory Commission on Civil Disorders.

1. History & Purpose: Pittsburgh Communications Foundation

The Pittsburgh Communications Foundation was chartered April 22, 1968, by Common Pleas Court of Allegheny County as a non-profit public entity. Broad-based with 46 incorporators, the Foundation is strongly rooted among printed and electronic journalism leaders, educators, government and community heads. Among the founders are editors and publishers of Pittsburgh-area newspapers, general managers of nine radio and television stations here, the Mayor, a County Commissioner, several public relations heads, seven past presidents of Sigma Delta Chi professional journalism society, the national SDX executive, two U.S. Senators, four U.S. Congressmen, and deans of four journalism schools. The Governor is an honorary founder. The idea of a Pittsburgh Communications Foundation was conceived in the Sigma Delta Chi Pittsburgh Chapter in 1963, when a study committee was appointed, and received great impetus in 1966, when the National SDX Convention held in Pittsburgh netted an unprecedented \$7,000 profit--turned over to this fledgling Foundation by the convention committee composed largely of the local communications media.

Pittsburgh Communications Foundation officers and directors are listed on the covering letter. They are representative leaders of the mass media and communication in Pittsburgh.

The need to be filled is long-overdue foundation-like attention to, and concern for, the role of journalism and mass communication in our changing society. To this broad aim, the Pittsburgh Communications Foundation is dedicated. The PCF hopes to harness the forces of journalism, mass communication, and education in Pittsburgh and beyond. To translate aims into action, founders and others have come forth with a portfolio of suggested projects including: a) Institute for Urban Communications; b) Pittsburgh Journalism Archives; c) special scholarships in journalism--a neglected field; d) communication benchmark lectures; e) schoolboy development--projects to encourage greater interest of bright young high school students in communications as a career; f) public education--to promote greater awareness and understanding of the function of journalism and mass communications; g) arts and communication; h) journalism library in the Press Club; i) aid to authors; j) pioneer research--using Pittsburgh as a pilot laboratory to explore legal-journ, social-journ, business-journ, cultural-journ problems of national import and impact. And others. Communication is a vital realm of our society that is little understood. Through an independent approach, the PCF aims to create projects, research

problems, employ vision, muster resources, urge action, chronicle trends, chart new paths in public communication attitudes, actions and awareness that may be unprecedented in this nation.

II. The Proposal: Establishment and Implementation

To operate effectively, the Pittsburgh Communications Foundation needs an adequate financial base. To provide this key initial impetus, the PCF respectfully asks that the principal private philanthropic foundations of Pittsburgh consider this proposal: Provide the seed money for a) two years of operation, and b) an initial worthy pilot project. This seed planted by the enlightened local foundations will be the encouragement needed by the PCF officers and directors to prove the premise, build the program, broaden the scope, seek other funds nationally and locally, become successful, become the catalytic agent to create many significant, needed projects. A 2-year budget is included herein.

III. The Pilot Project: Probing Urban Communication in a Volatile So

The PCF wants to set up a Planning Conference to explore the creation of an Institute of Urban Communications. This important project is recommended by the National Advisory Commission on Civil Disorders. "What effect do mass media have on riots?" Research is needed on media coverage of riots, and ghetto reaction to; research on better ways of communication, and on the need for more black journalists. Such an Institute would a) sponsor training and education of journalists in urban affairs, b) recruit, train and place black journalists, c) study police-press relations, d) review media performance on riots and racial issues, e) research the role of media in race relations. The Planning Conference, in Pittsburgh, will draw selected leaders of communication. Seed money will pay for the Planning Conference. This initial project of the PCF can have vast national significance in mass communication and urban problems.

IV. Related Research:

- a) Report of the National Advisory Commission on Civil Disorders (Dutton-New York Times, April 1968), particularly Chapter 15;
- b) Charter and by-laws, Pittsburgh Communications Foundation;
- c) Reports of Pittsburgh civil disorders, Pittsburgh Press & Post-Gazette, Carnegie Library, and in film news libraries of KDKA-TV, WIIC-TV, WTAE-TV.

V. Methodology: What We Plan To Do

Enabling grant from philanthropic foundations; establishment of PCF office and executive; pursuit of other worthy projects in journalism, mass communications, education; obtaining of grants from companies, individuals, other foundations; establishment of regular contributing program--individual sponsors, patrons, contributors; im-

mediate call to media leaders nationally or regionally to participate in Planning Conference on the pilot Institute; Planning Conference to be held, and its recommendations made; Institute of Urban Communications to be established as a separate spin-off from the PCF.

VI. Budget:

a) 2-year support for PCF:

1) Salary of executive @ \$500/month	\$12,000	
2) Expenses of executive @ \$100/month (meetings, lunches, travel, etc.)	2,400	
3) Salary of receptionist-typist @ \$200/month	4,800

ReBulet dated 10/28/68.

Relet authorized contact with [REDACTED]
Racial Liaison Source, in connection with counterintelligence
regarding the Black Panther Party.

As the Bureau has been advised, the Black Panther
Party has not been successful in its organizing efforts in
Pittsburgh. No activity in this regard has taken place since
September, 1968.

[REDACTED] has not been contacted regarding this matter
and it is not believed he should be contacted in view of the
failure of the Black Panther Party to organize. If the
situation changes, this matter will again be considered.
It is known that [REDACTED] is against violence and it is believed
he could be approached without fear of embarassment; however,
it does not appear that any purpose would be served.

(3) A publicity campaign to discredit STOKELY CARMICHAEL among Black Panther Party (BPP) members is being considered. However, in view of the fact that CARMICHAEL has apparently moved out of WDC and has indicated that he plans to leave the United States in the near future, it is deemed advisable to hold this consideration in abeyance until such time as the plans of CARMICHAEL become known with more certainty.

II. OPERATIONS BEING EFFECTED

WFO is not currently effecting any operation under the counterintelligence program.

III. TANGIBLE RESULTS

As a result of information received from sources that CARMICHAEL was planning to leave the United States, WFO recommended to the Bureau that this data be made available to appropriate news media contacts. A number of articles appeared in local WDC newspapers indicating CARMICHAEL's plans to leave the United States, and further indicating that CARMICHAEL might, in fact, be running away from the problems of his less fortunate "brothers" who must remain behind to face the new administration which promises sterner measures to effect "law and order".

IV. DEVELOPMENTS OF A COUNTERINTELLIGENCE INTEREST

As the Bureau is aware, according to information in possession of [REDACTED] STOKELY CARMICHAEL recently arranged for shipment of his household goods and personal possessions to Conakry, Guinea, in care of SEKOU TOURE, the President of the country. Although CARMICHAEL indicated that the possessions were to be given away, [REDACTED] Sources indicate that CARMICHAEL is now living in New York City.

[REDACTED] is reported by [REDACTED] sources to be trying to re-establish [REDACTED] former connections and may be planning to try and reopen the WDC, SNCC office. To date, no action has been taken in this regard.

[REDACTED]

Colonel HASSAN JFRU-AHMED BEY, Commander of the Blackman's Volunteer Army of Liberation, on 11/24/68, announced the establishment of a Moorish Republic provisional government in the U.S. At a press conference, in the organization's newly painted headquarters at 1624 Newton St., N.W., HASSAN said that he would go to the State Department to seek diplomatic recognition for his military regime. HASSAN said that the Moorish Republic to which every black man belongs, owns 2,000 acres in several African countries. WFO sources report that HASSAN's group consists of only himself and about ten to twelve followers.

The New School for Afro-American Thought (NSAT) recently was involved in an internal power struggle for control of the school. Sources of WFO familiar with NSAT indicate that as a result of the struggle, the more militant clique has been put out and the more moderate group which is intent upon stressing and fostering the educational intent of NSAT in the field of black history and culture has taken control.

RACIAL MATTERS (BLACK PANTHER PARTY)

ReBulet to Atlanta and other offices, 10/30/68.

With regard to the Bureau's plans to circulate a slogan to cause friction between the extremist Black Panther Party (BPP) and the extremist Student NonViolent Coordinating Committee (SNCC), as well as to ridicule and help neutralize the BPP to its followers, the Los Angeles Office advises as follows:

1. This technique would not affect BPP-SNCC relations in the Los Angeles Division, inasmuch as SNCC is a small, ineffective group which is in a state of decline and not considered a threat to the BPP.

2. This technique would not have any affect on BPP recruiting.

3. There are no news media sources available who are in a position to publish such an item.

4. Los Angeles has an informant who could possibly circulate the slogan, however, SNCC is not of sufficient stature in the Negro community to have any influence.

5. Trusted BPP informants could make statements to other BPP members that they heard SNCC members make statements containing the slogan.

No counterintelligence action will be taken by the Los Angeles Office without Bureau authority.

Re Jackson letter 11/20/68, requesting Atlanta to advise of feasibility of making telephone call as outlined in Jackson letter 10/30/68 to the Student Nonviolent Coordinating Committee or a Congregating Spot in the Atlanta Division.

For the information of Jackson and New York, the Atlanta Office of SNCC has been without telephone service for an extended period of time because of non-payment of bill. However, SNCC continues to maintain offices at 360 Nelson St., S.W., and a number of local individuals, subjects of Atlanta investigations, are still closely affiliated with SNCC.

There are several places where SNCC sympathizers congregate in Atlanta, however, telephone service to these locations is non-existence, probably because of financial conditions.

Atlanta agrees with Jackson as to the merits of such a phone call being a disruptive factor, but it is believed that such a call to be effective and not subject to suspicion, it must be directed to a location where it is logical that [REDACTED] name or habits would be known.

It has been reported in Atlanta that soon after January 1, 1969, SNCC will receive a grant of \$34,000 in the name of the Afro-American Society of Greater Atlanta from the National Episcopal Church in New York. This will obviously be used by SNCC to pay some of their outstanding obligations and among other things will enable them to have telephone service restored.

Atlanta will follow this possibility closely and in the event it materializes and telephone service is re-established at SNCC, will advise Jackson and New York so that further consideration may be given to making the telephone call regarding [REDACTED] previously outlined.

REQUEST OF THE BUREAU:

Bureau authority is requested in order to furnish to [REDACTED] with selected literature and information which is factual and which could be obtained by anyone with the proper sources in the black militant groups at Memphis.

In an effort to counteract and discredit black power activities at Memphis, the Memphis Office is desirous of furnishing on a highly selective basis printed material issued by the Black Organizing Project (BOP), the primary black militant group at Memphis, and distributed by the BOP to a trusted newspaper contact at Memphis and such other information which can be used to embarrass the BOP without possible compromise of the Bureau's interest or sources of information.

[REDACTED] has been most cooperative with this Bureau in the past. [REDACTED] is deeply concerned regarding BOP and other militant black power activities at Memphis and has written several articles exposing illegal black power practices in connection with employment of black militants by the War on Poverty Program sponsored by the U. S. Office of Economic Opportunity at Memphis and the use of funds of the War on Poverty by these black militants.

The BOP is a violent black extremist group in Memphis which includes the Invaders Organization. Members of the Invaders have sniped at police officers and been involved in fire bombings. The BOP has advocated urban guerrilla warfare.

[REDACTED] is willing and able to write articles exposing the true aims of the BOP organization. Members of the BOP have been employed on poverty projects and have received Federal funds, facts which we have previously disseminated. Because of this involvement in the poverty program, it is especially important to publicize the extremist nature of this organization.

ReBuairtel 12/6/68 to Albany and Various Offices.

The Kansas City Division has, and knows of, no "visual material", specifically identifiable as related to violence by "black extremists", as described in referenced Buairtel.

In the racial disturbances at Kansas City, Mo. in April, 1968, during which six Negroes were killed allegedly by Police or National Guard shootings with no white fatalities, damage resulting from night arson was estimated in the hundreds of thousands of dollars. The arson in Negro neighborhoods was attributed over several nights to unknown Negro hoodlums, retaliating against Police and National Guard action, and not to any known or suspected "black extremists".

The following counterintelligence measure is being submitted for the Bureau's consideration:

The NYO desires to xerox or otherwise reproduce 3000 copies of the attached circular which will then be distributed throughout the city of NY.

The original and one xerox copy is being furnished the Bureau. It is noted that Photo No. 2 is not too clear on the xerox copy made in the NYO. Perhaps the Bureau might be in a better position to produce a better copy which will still not look too professional. It is also suggested that these 3000 copies be reproduced at the Bureau in the interest of further security.

When the copies are received from the Bureau they will be distributed as follows:

1. Each agent assigned to the Racial Squad will help distribute some copies at various locations (Apt. houses etc) during the course of their daily work. The agents will be alerted to the necessity of security and discretion.

2. A good portion of the circulars will be left in subway cars in the various subway lines which travel throughout NYC. People who ride subway cars for any distance will tend to read anything. At this time this would appear to be one of the better means of distribution.

Authority is not being granted to reproduce and distribute the proposed circular concerning Aponte, Collier and Brothers.

Although the widespread distribution of the circular in the New York City area may have the effect of creating suspicion concerning these individuals, the Bureau has reservations concerning the efficacy of the action when the possible benefits are weighed against the risks inherent in having Special Agents distribute the circular.

Furthermore, the photographs and detailed descriptions appearing on the circular give rise to the presumption that the circular was prepared by an intelligence or police agency.

The idea of casting suspicion upon the three extremists mentioned in the circular is a good one. It is suggested that you concentrate on one of the three individuals who you believe is most vulnerable to counterintelligence action involving the charge of being a police informant. If this individual has not been interviewed recently, you should consider requesting Bureau authority to interview him for informant potential prior to making a specific recommendation to implement counterintelligence measures against him.

Re Bureau airtel 12/6/68.

Enclosed herewith for the Bureau are two 8"x 10" glossy photographs of weapons and ammunition confiscated by the Cincinnati Police Department on 12/2/68.

These items were located at 2600 Euclid Avenue, Cincinnati, at the residence of one ARTHUR TRIERNE, CARTER, Negro, male, born 6/26/46. CARTER is also known by the name "Checka". CARTER was arrested along with three companions after they had attempted to purchase weapons using a fraudulent credit card. As a result of the arrest, the Cincinnati Police Department obtained a search warrant for the residence of CARTER and located the cache of weapons and ammunition. CARTER has been identified as a member of the Black Turks, an organization self-described as non-violent, organized into a drilling and marching group, formed to create an image of Negro manhood and to help their neighborhood "cool it" when tensions arise.

COUNTERINTELLIGENCE PROGRAM
BLACK NATIONALIST - HATE GROUPS
RACIAL INTELLIGENCE
(BLACK PANTHER PARTY)

Reurairtel 12/9/68.

In accordance with the guidelines furnished you by the Training Division at the Police Training Briefing Session held at the Bureau on 12/9 and 10/68, you should brief Command Officers of the Intelligence Unit of the Boston Police Department concerning the activities of the Black Panther Party (BPP) on the campus of Northeastern University, Boston, Massachusetts. However, confine your briefing concerning the BPP to authorized police officials and do not confer with any college administrators concerning this matter nor suggest that the Boston Police Department so confer with college officials.

In view of the fact political education classes sponsored by the BPP are being held at Northeastern University, you may desire to forcefully bring to the attention of public officials the fact that the BPP is advocating arson, killing, and disruptions of campus life. You may accomplish this under captioned program through an anonymous mailing or other means which will not be traced to the Bureau. Carefully devise a counterintelligence action to effect the desired result and submit same to the Bureau for approval.

In view of known BPP animosity toward Jews and responsible Negroes, consider counterintelligence which will have the effect of aligning the considerable Jewish population

in the greater Boston area and the prestige of Senator Edward Brooke behind a move to force university trustees and/or administrators to deny the use of school premises for Black Panther anarchist activity.

In this regard, there is enclosed for your information a cartoon which appeared in the 10/19/68 issue of "The Black Panther," the official publication of the BPP. You may desire to consider identifying the caricatures appearing in the cartoon as public officials in Boston by handprinting their names on top of the caricatures. As an example, the white caricature could be identified as a wealthy Jewish businessman or public official who is involved in the public weal in Boston. The four subservient Negro caricatures could be identified as [REDACTED]

[REDACTED] third well-known responsible Negro leader, and a Negro police officer.

The cartoon could then be reproduced and mailed to the individuals identified in the cartoon as well as other prominent Jewish and Negro citizens who are in positions to bring pressure to bear upon Northeastern University officials. The cartoon should be prepared in such a manner that the recipient will believe it was mailed to him by the BPP.

If you believe the above will effectively marshal public opinion among responsible Negroes and the Jewish community against the BPP, you should submit your comments to the Bureau to that effect along with your detailed recommendation and request for approval of this counterintelligence action.

Take no positive action without prior Bureau authority.

Re Bureau letter to Baltimore dated 11/25/68, and
Omaha letter to Director dated 12/2/68.

As noted in referenced Omaha letter, [REDACTED]
[REDACTED] of the Black Panther Party (BPP) in Omaha,
[REDACTED] indicated that the BPP in Omaha was in the process
of reorganizing. Informants have advised that regular
meetings of the BPP in Omaha have not taken place during the
past couple of months.

The BPP group in Des Moines, Iowa, has continued
to operate as a loose-knit group, however, to date the organi-
zation and purposes are not known.

In view of the foregoing, it is not felt that in-
telligent recommendations can be made at the present time
regarding counterintelligence measures aimed at crippling
the BPP. This matter will continue to be closely followed
by Omaha, and any suggestions for counterintelligence action
at a future date against the BPP and/or its leadership will
be submitted by separate letter.

Inasmuch as a serious struggle is taking place between the Black Panther Party (BPP) and the US organization, Sacramento is considering obtaining a stencil and painting the letters US on the BPP headquarters in Sacramento. If Sacramento determines that this could have some significance in a counterintelligence way, this will be submitted to the Bureau for their approval.

For the Bureau's information some reaction to the anonymously mailed transcription of LEROY ELDRIDGE CLEAVER's speech made in Sacramento on 10/2/68 has been received.

[REDACTED] advised that he had talked with several individuals who had received a copy of this speech and these individuals indicated that if the four letter words had been omitted, the speech meant absolutely nothing. These individuals indicated that the speech was in no way constructive but was completely destructive. ELDRIDGE was only indicating that they were going to replace the pigs with pigs.

SUBJECT: COUNTERINTELLIGENCE PROGRAM
BLACK NATIONALIST - HATE GROUPS
RACIAL INTELLIGENCE (BLACK PANTHER PARTY)

Re IP letter to Director, 12/2/68.

The Black Panther Party and other black organizations in Indianapolis continue to battle for publicity and money among the black community. At this time in the Black Panther Party, dissention is continuing over the misuse of funds, and enough members have quit at this time that they are now becoming what appears to be a defeated organization in Indianapolis, Indiana. They at present are facing a rapid decline in the total number of members and also the number of apparent active members is decreasing. At the past two public meetings where they were attempting to draw new members and support they had only ten to fifteen persons present at both meetings and those present were the officers of the Black Panther Party and the only active members. The BPP at present is not enjoying any support from the majority of the black community and the word is spreading of the misuse of the funds as well as the gifts and food collected by the Black Panther Party which never reached the needy for whom they were intended.

Measures taken to increase the speed with which the BPP seems to be declining in Indianapolis have been through interviews with members of the Negro community at which time mention is made of the facts concerning the food and money misused by the leaders of the BPP serving to help the whole Negro community to learn of this. In addition to the above, informants are used in attempts to help maintain dissention within the BPP and the other black organizations.

In view of the fact that the BPP in Indianapolis is declining so rapidly at this time through much fault of its own, no other counterintelligence measures are deemed necessary at this time. It is felt by informants that the BPP if it continues to go in its present direction will be virtually dead in Indianapolis in a matter of months. The number of active members has dropped to approximately one-third of the number they had less than two months ago.

on the BPP, anticipates the submission of such communication on or prior to December 16, 1968.

By letter November 22, 1968, Chicago submitted specific counter intelligence recommendations concerning [redacted] local Black Nationalist personality, who has most recently been an influential advisor to young black students in Chicago who have been involved in student boycotts on the high school level. No response as yet has been forthcoming and Chicago will take no action regarding the recommendations submitted without prior Bureau approval. Chicago is continuing to attempt to isolate instances regarding local Black Nationalists who have been in possession of firearms in the past and who appear to possibly be in violation of local and state firearms provisions. It is anticipated that such a review will be completed shortly and where appropriate, communication will be submitted to the Bureau with specific recommendations contained therein. It appears in some instances however, that action in this regard may be taken locally which is not purely counter intelligence in nature.

An example of such was the recent instance where in connection with a review of background information concerning JEFF FORT, local leader of the Blackstone Rangers, south side Chicago Negro gang it was determined that a warrant was outstanding for FORT for failure to pay a fine of \$50.00 on a disorderly conduct conviction. In conversation with the personnel of the Chicago Police Department, Gang Intelligence Unit, this information was made available and it was agreed that if an arrest warrant for FORT was executed at his residence, a search could then be made of the premises and contraband such as firearms or narcotics might possibly be located.

This was in fact done, as set forth in Chicago airtel and letterhead memorandum of December 9, 1968, under the caption JEFF FORT, Contempt of Congress, Miscellaneous Information Concerning. When the arrest warrant was served on FORT a search was made by Police Department representatives of the premises at his residence and a .22 caliber four shot derringer pistol was located. As a result FORT was subsequently charged with having an unregistered weapon in his possession as well as Unlawful Use of a Weapon. He is scheduled to appear

in court on December 18, 1968, to answer to these charges. It might also be noted in passing that Chicago continues to maintain periodic contact with [redacted] approved by the Bureau for counterintelligence usage sometime ago, but primarily against the NOI. These contacts have been amplified recently by virtue primarily of changing times and events to embrace the Black Nationalist field generally. The contacts with [redacted] informal in nature, are considered to have been directly responsible for recent statements by him, widely reported in the Chicago press media, critical of gang influences in the Ghetto as well as Black Nationalist groups, the latter described by him as "glib exploiters of disenfranchised people."

It is felt [redacted] will certainly continue to speak out in such fashion and the contact by Chicago productive of such will continue.

In referenced Chicago letter reference was made to possible friction between [redacted] above, and [redacted]

[redacted] Since referenced letter no significant developments have taken place in this regard and no further information has been developed reflecting any interest on the part of [redacted] in this group. The BLA holds regular meetings, however, to date less than 10 individuals have actually joined the organization, its activities limited almost exclusively to these meetings and to such activities as literature distribution. At the present time BLA appears to be floundering and to have no real or apparent support within the Negro community or from Black Nationalists in particular. It is felt a counterintelligence interest at this time in the BLA is not warranted.

2) Operations Being Effectuated

Reference has previously been made to the periodic contact with [redacted] to this end. It has also been noted that Chicago is awaiting Bureau authority to implement a counterintelligence program against [redacted]. Recommendations regarding [redacted] were submitted on November 22, 1968.

RACIAL INTELLIGENCE

Re Chicago letter (quarterly progress) dated 10/25/68.

Set forth hereinafter is the periodic progress letter concerning captioned matter, as requested in Bureau airtel dated March 4, 1968, under the captions as instructed:

1) Operations Under Consideration

On a continuing basis Chicago is in the process of analyzing and considering the constantly changing local Black Nationalist situation from the viewpoint of the development of an effective counterintelligence program. At the present time emphasis is being placed upon the developing Black Panther Party (BPP) group which has only recently opened offices on Chicago's west side and which is now actively recruiting and establishing itself as a functional organization locally. This situation remains somewhat fluid and as yet no specific counterintelligence program has been developed for this reason.

As an example, in the initial stages here of the establishment of the BPP group there was conflict between rival factions, one recognized by the parent organization in Oakland, California, the other unsanctioned. The rivalry between such militantly orientated persons briefly threatened to erupt into physical confrontation on several occasions, however, before this situation could be exploited the problem was resolved and the group merged under the leadership of ROBERT BROWN, former local leader of the Student Non Violent Coordinating Committee. The personalities which have subsequently emerged as dominant within the BPP locally are, in addition to BROWN, ROBERT RUSH, FRED HAMPTON, Maywood, Illinois, and DREW FERGUSON.

Chicago is closely following the development of this group, and in line with a recent Bureau letter requesting the bi-monthly submission of a counterintelligence letter

on the BPP, anticipates the submission of such communication on or prior to December 16, 1968.

By letter November 22, 1968, Chicago submitted specific counter intelligence recommendations concerning [REDACTED] local Black Nationalist personality, who has most recently been an influential advisor to young black students in Chicago who have been involved in student boycotts on the high school level. No response as yet has been forthcoming and Chicago will take no action regarding the recommendations submitted without prior Bureau approval. Chicago is continuing to attempt to isolate instances regarding local Black Nationalists who have been in possession of firearms in the past and who appear to possibly be in violation of local and state firearms provisions. It might also be noted in passing that Chicago continues to maintain periodic contact with [REDACTED] approved by the Bureau for counterintelligence usage sometime ago, but primarily against the NOI. These contacts have been amplified recently by virtue primarily of changing times and events to embrace the Black Nationalist field generally. It is felt [REDACTED] will certainly continue to speak out in such fashion and the contact by Chicago productive of such will continue.

In referenced Chicago letter reference was made to possible friction between ROBERT BROWN, above, and ROBERT LUCAS, the latter the National head of the newly formed Black Liberation Alliance (BLA). Since referenced letter no significant developments have taken place in this regard and no further information has been developed reflecting any interest on the part of BROWN in this group. The BLA holds regular meetings, however, to date less than 10 individuals have actually joined the organization, its activities limited almost exclusively to these meetings and to such activities as literature distribution. CG 157-2209

Chicago also will continue to selectively advise local authorities of instances where local Black Nationalists appear vulnerable to arrest on local charges, in instances where such information is either not available or apparent to them. This is in reference to such instances as that set forth previously involving JEFF FORT.

3) Tangible Results II

In this regard, the remarks of [REDACTED] alluded to previously and the arrest of FORT both appear as tangible results of Chicago counterintelligence activity.

4) Developments of Counterintelligence Interest

The principal development locally, subsequent to referenced letter, would appear to be the emergence of the BPP Chapter referred to previously under the leadership of ROBERT BROWN and his associates. The question of the ability of this group to provide a unifying and polarizing influence within the local Black Nationalist community remains to be seen. Chicago will very closely follow the development and activities of this group, through knowledgeable BPP sources, and will submit counterintelligence suggestions in the bi-monthly letter requested by the Bureau as instructed.

RACIAL INTELLIGENCE
BLACK PANTHER PARTY

RE: Bureau airtel, 11/25/68, requesting bi-monthly submission of counterintelligence suggestions concerning the Black Panther Party (BPP) and Chicago airtel, 12/5/68.

Chicago advised in the quarterly counterintelligence progress letter of 12/12/68, that an analysis of the local Black Nationalist situation reflected that the most important development recently concerned the organization of the Chicago Branch of the BPP. Set forth below is Chicago's recommendation concerning a counterintelligence action directed against the BPP.

Information has been received only recently which indicates that [redacted] and several of his close associates have expressed interest in enlisting the support of the Blackstone Rangers (BR) for the BPP. Overtures have apparently been made by certain of these BPP people toward the BR; however, these overtures have met with no initial success.

As the Bureau is aware, the BR are one of the largest and most violence-prone Negro street gangs in Chicago. Although accounts differ as to the actual numerical strength of the BR, the gang does appear to number in excess of 1,000 or so Negro youths who owe allegiance to this group. The BR leader is JEFF FORT, well known to the Bureau, recently convicted of contempt of Congress as a result of his refusal to testify when called before a Senate Committee investigating misuse of Government funds granted indirectly to the BR. FORT was recently briefly incarcerated in Washington, D.C., made bond, however, and has since returned to Chicago.

Bureau (RM)
Chicago

EX-103

REC'D

As noted, information reflects that BPP overtures to the BR were not welcomed, particularly by FORT and others in the BR leadership. This element obviously does not desire that the allegiance of these large numbers of Negro youths fall elsewhere. As a result of the lack of success on the part of the BPP in this direction, [REDACTED] have reportedly made disparaging remarks concerning FORT personally and for lack of commitment to black people generally.

FORT is reportedly aware that such remarks have been circulated, but is not aware of the identities of the individuals responsible. He has stated that he would "take care of" individuals responsible for the verbal attacks directed against him.

Chicago, consequently, recommends that FORT be made aware that [REDACTED] together with other BPP members locally, are responsible for the circulation of these remarks concerning him. It is felt that if FORT were to be aware that the BPP was responsible, it would lend impetus to his refusal to accept any BPP overtures to the Rangers and additionally might result in FORT having active steps taken to exact some form of retribution toward the leadership of the BPP.

Since Negro SAs assigned to Chicago have interviewed FORT previously, it is not being recommended that they be utilized in any telephonic or oral fashion in this regard; however, it is believed a letter from a "black brother" advising FORT of a plot on the part of the BPP to take over the Rangers, as well as their responsibility for the verbal attacks against them, would be productive of disunity and possibly prove harmful to persons in the local BPP leadership and to the organization generally.

This letter would be to FORT personally, at his residence, on unmarked stationery and would consist of the above information, from an individual formerly associated with the BPP who is opposed to the BPP effort to try to utilize the BR for its own purposes.

Chicago will take no action in this regard without prior Bureau approval.

Reference is made to Chicago memorandum dated November 26, 1968, captioned as above.

On December 8, 1968 [REDACTED]
Chicago, Illinois, Police Department, advised that Jeff Fort, Leader of the Blackstone Rangers, a Negro youth gang on Chicago's south side, was arrested on that date on a warrant issued for failure to pay a fine of \$50 following a disorderly conduct conviction on March 16, 1967. Fort was arrested in his home at 1534 East 68th Street, Chicago, Illinois. During the search of his apartment at the time of his arrest, a .22 caliber, four shot, Derringer pistol was found and as a result, Fort was charged with having an unregistered gun and unlawful use of a weapon.

Fort paid the \$50 fine and was released on a \$50 bond on the latter two charges. He is scheduled to appear in court on December 18, 1968, on these charges.

RACIAL INTELLIGENCE (BLACK PANTHER PARTY)

ReBulet to New York 11/7/68 and Bulet to Baltimore 11/25/68.

No counterintelligence measures were aimed against the BPP by the Newark Division during the past two-week period and no accomplishments obtained under the program.

It appears at this time that situations which exist within the various BPP chapters differ from chapter to chapter and that a situation which may offer counterintelligence possibilities in one division has no relationship with conditions in another division.

The main BPP activity in New Jersey consists of the Jersey City and Newark, N.J., chapters. Even though in close proximity, these chapters differ greatly in regard to leadership, finances, tactics, etc. Neither of these chapters appears to fear reprisals by other militant Negro groups, nor are there any known differences with US or PEACE AND FREEDOM PARTY white hippies.

The Newark and Jersey City chapters are under close scrutiny by local authorities.

The recent arrest of Jersey City BPP leader ISAAH ROWLEY and two associates has seriously crippled this chapter, resulting in meetings not being held and orders being given to stop wearing the BPP uniform.

The recent explosion at the Newark BPP Headquarters in which the BPP Captain was injured has curtailed the activities of this chapter.

The Newark Office in addition to informant coverage in both the Jersey City and Newark BPP chapters has been able

COUNTERINTELLIGENCE PROGRAM
BLACK NATIONALIST - HATE GROUPS
RACIAL INTELLIGENCE
(BLACK PANTHER PARTY)

The August, 1968, issue of "Mojo," official newspaper of the Black Student Congress, (BSC) editorially condemned the Black Panther Party (BPP). The editorial notes that it is not the general policy of "Mojo" to criticize the "liberation efforts of brothers." However, "Mojo" warned the community, "Beware of the Panthers!"

Dissemination of this article on a widespread basis might be appropriate at this time after the National Association for the Advancement of Colored People (NAACP) has editorially criticized black extremists. New York should submit recommendations for counterintelligence use of this editorial, commenting specifically on the degree of influence of the BSC in your area.

Since the BPP is now attempting to make inroads upon the Negro college population, dissemination of this editorial might be directed to Negro college groups. New York should also consider the possibility of making it appear that the editorial is being disseminated by members of the BSC in New York. No counterintelligence action should be taken without Bureau authority.

(STOKELY CARMICHAEL)

Re Bureau letter to WFO 11/15/68.

In response to Bureau request, Los Angeles Division suggested that to help neutralize STOKELY CARMICHAEL, a letter be written anonymously to his wife, indicating that CARMICHAEL is using her and her funds to travel for illicit romantic activities and that his black nationalist activities are mostly a cover for these activities.

WFO is of the opinion that this suggestion would not effectively serve to neutralize CARMICHAEL for the following reasons:

1. WFO has learned through sources that MIRIAM MAKEBA, CARMICHAEL's wife has become increasingly annoyed because of the number of phone calls received at their residence from people in the "movement" trying to reach CARMICHAEL. She indicated that she felt his involvement in the movement was taking too much time and that they did not have enough time to themselves. This indicates that MAKEBA is aware of the nature of CARMICHAEL's activities and would be unlikely to believe that they were other than legitimate.

2. Recently, MAKEBA has accompanied CARMICHAEL on most of his speaking engagements and would undoubtedly be aware of or reasonably suspect any current illicit affairs of CARMICHAEL. In the absence of factual information in this regard, a letter indicating CARMICHAEL was using his black extremist activities as a cover for illicit affairs would be highly suspect by MAKEBA and could well have the reverse effect on their relationship and dedication to the movement.

(1 - 100-43503)

RNW: [REDACTED] Buy U.S. Savings Bonds Regularly

DEC 20 1968

83
[REDACTED] [REDACTED]

4. CARMICHAEL's marriage has served to divide his time between the "movement" and his personal life, allowing him less time to be actively organizing.

5.  Such a statement would seem to indicate a moderating of CARMICHAEL's more violent attitude and a more cautious approach to future activities.

6. CARMICHAEL's marriage would seem to be a factor in his apparent decision to leave the United States and if he were to become separated from MAKEBA, it is quite conceivable this would serve as an excuse for his re-dedication to the black extremist movement.

For these reasons it would seem that CARMICHAEL is neutralized more by his marriage to MAKEBA than he would be by attempts to disrupt this marriage and WFO recommends against the suggestion at this time.

SUBJECT: COUNTERINTELLIGENCE PROGRAM

RACIAL INTELLIGENCE

ReBuairtel to Albany dated 3/4/68, and Pittsburgh letter to the Bureau dated 8/28/68.

There have been no significant changes in the overall Black Nationalist Movement since submission of referenced Pittsburgh letter.

The Black Panther Party (BPP) did have an organizer in the Pittsburgh area during September, 1968, and news publicity during that time indicated an attempt would be made to establish a BPP in Pittsburgh. However, after the organizer left the Pittsburgh area, no organizational success was realized by the BPP and a branch was not organized here and no organizational activity is taking place at this time.

(1) Operations Under Consideration

DAVID OWENS, who is included on the Agitator Index of the Pittsburgh Office and who was involved in a gun fight with Pittsburgh Police officers in October, 1968, is employed by the Urban League of Pittsburgh. This employment lends respectability to his activities because of the respected position of the Urban League. This office is considering counterintelligence action to publicize OWENS' activities and propensity for violence and to remove him from this employment, if possible.

Operations Being Effectuated

A recently developed racial confidential source is employed by the Mellon Foundation in Pittsburgh. This source

is in a position to influence grants made by the Foundation, and this matter is followed closely with him in order to prevent funds from being furnished to any Black Nationalist extremist groups. The matter is also being considered from the standpoint of attempting to determine if source is in a position to influence grants from other foundations, both in the Pittsburgh area and in other areas, to prevent funds from such other foundations from also being furnished to Black Nationalist extremist groups.

The counterintelligence operation aimed at curtailing use of Presbyterian Church funds in irresponsible racial projects has been brought to include a fictitious name letter sent to Presbyterian Churches in this area protesting the use of such funds to finance an agency in the Homewood-Brushton area of Pittsburgh, a predominately black area, which Agency is directed by [REDACTED] an Agitator Index subject of this office [REDACTED]

(3) Tangible Results

On 11/14/68, the Pittsburgh Urban League submitted a written program to the Mellon Foundation as a result of a previously-submitted request for funds. The written program included a proposal for the creation of a civilian police review board. Public source material containing documentation opposing such civilian review boards was furnished to our source at the Mellon Foundation. As a result, funds for the Urban League were delayed until the Urban League submits a more satisfactory proposal.

(4) Developments of Counterintelligence Interests

Pittsburgh sources have reported recently that racial activities in this area have decreased markedly in recent weeks. Various groups and organizations that had been previously active, now appear to be inactive.

It is noted that the Pittsburgh City Council has recently voted approval of a new disorderly conduct ordinance, which tripled maximum penalties and which was more definite as to the types of actions which could bring arrests. Additionally, the Allegheny County Prosecutor has been requesting, and obtaining, higher bail for persons involved in assaults against police officers. This increased bail has been set in amounts ranging as high as \$25,000. [REDACTED]

gb

PG 100-15780

[REDACTED] has expressed the opinion that these two factors, combined with the wounding of DAVID OWENS and another individual in the gunfight with Pittsburgh Police officers, which was mentioned above, has been responsible for the decrease in racial activities in the past several weeks.

Re Indianapolis let to Director 12/16/68.

The Black Panther Party in Indianapolis had their headquarters located at 113 West 30th Street raided on 12/13/68 by members of the Indianapolis Police Department and the Alcohol Tobacco Tax Unit of the U. S. Treasury Department. The IPD and ATTU were attempting to put in effect a Federal search warrant based upon information developed by the IPD that one or more machineguns were in BPP headquarters. Two BPP members who were in the building denied officers entrance and guarded the front door with a shotgun. IPD then used teargas to gain entrance to the building and arrested the two Panther members as they came out of the building.

The above search failed to turn up any automatic weapons and has only served to at least temporarily unite the BPP in Indianapolis and to disrupt the measures taken to date to split up the BPP in Indianapolis. Efforts to talk to other Black Nationalist leaders in Indianapolis and to further cause dissension among the black organizations and the BPP will be continued.

In addition, HARRY BLACKWELL, who was assistant deputy chairman, BPP in Indianapolis, was arrested by the IPD on 12/29/68 on warrant for uttering a forged instrument. BLACKWELL, who had been in hiding and previously was unavailable for interview, will be interviewed.

Re Chicago airtel dated 12/13/68 and Bureau airtel dated 12/6/68.

Chicago has reviewed the material readily available at the Graphic Art's Section, Chicago Police Department, as indicated in referenced Chicago airtel. This material was somewhat disappointing, and none was believed suitable or appropriate in line with request in referenced Bureau airtel.

Chicago has recently obtained a set of photos, made available by ABC-TV, Chicago, as a result of their coverage of a Black Panther Party meeting at the University of Illinois, Chicago Circle Campus, near the end of November, 1968. These photos are in color, and are numbered 1 through 3 in the enclosed. The individuals in photo numbered 1 is [REDACTED] Black Panther Party Minister of Defense; photograph number 2 depicts two members of the local Black Students for Defense group, present at the meeting and photo number 3 depicts five local Black Panthers standing against the wall of the meeting room. These photos are being provided for any interest they may have, and Chicago will be most alert for more specific photos of the type desired in the future. No photos of black extremists drilling, or their weapons are available in the Chicago Office or at the Police Department.

Regarding diagrams of explosives and sabotage devices, reference is made to Chicago Letterhead Memorandum, November 26, 1968, under the Black Panther Party caption, which on pages 10 through 16, sets forth the so-called "Black Panther Party Destruction Kit."

Also enclosed for the Bureau's information are photos numbered 4 through 7, representing pictures of a Cincinnati, Ohio, based group known as the Black Turks. These nine Negroes were in Chicago, on August 17, 1968, at a period just prior to the Democratic National Convention. Due to their dress and actions, they aroused the attention of the Chicago Police Department. Their automobile was searched and four machetes were found, causing their subsequent arrest on Unlawful Use of Weapons charges.

The photographs numbered 5 through 7, were taken at the Chicago Police Department's Second District. The photo numbered 4 was made available by the Chicago Police Department; however the location or circumstances of the apparent Karate exhibition is not known.

Chicago will continually be on the alert for all future material received of the type of interest to the Bureau, and it will be provided under this caption.

ReBulet, 12/19/68.

The NYO suggests that xerox copies of the complete newspaper "MOJO" specifically marking the editorial column on page 2 should be mailed to the student newspaper editors at every Negro college in the United States. Pages 487 to 504 of the Negro Almanac lists 117 Negro colleges in the US.

In addition, it is recommended that the complete newspaper specifically marking the editorial column on page 2 should be sent to the following black student organizations in the NYC area who have in the past exhibited evidence of Black militant views in current issues. All these organizations are connected with institutions of higher learning in the NYC area.

1. President-Student Organization for Black Unity, Long Island University, Brooklyn Center, Brooklyn, NY.
2. President-Student Afro-American Society, 116th Street and Broadway, Columbia University, New York City.
3. Liberation School

7. President-Black Allied Student Association, Downtown Center of New York University, 8th Street, NYC.

The Black Student Congress has no influence in this area. Their only function is to publish and distribute the "MOJO" newspaper.

In order to make it appear that the editorial is being disseminated by members of the Black Student Congress, each envelope containing the "MOJO" xerox copy of the newspaper can be marked with the return address "Black Student Congress, New York, N. Y.".

An examination of the August, 1968 xerox copy of the "MOJO" newspaper available in NY file 157-2043 (Bufile 157-8839) indicates that this is not a clear copy. Therefore, it is felt that the Bureau should either send the original copy of the newspaper back to New York for xeroxing purposes or the xeroxing of 125 copies be done at the Bureau.

The NYO will, of course, afford this operation the proper security measures.

Bureau authority is requested to place above counterintelligence measure into operation.

Reurlet 12-31-68.

Enclosed is the August, 1968, issue of "WOJO," publication of the Black Students Congress (BSC) previously furnished by you.

New York is authorized to copy the editorial on page two of "WOJO" and send copies to the seven black student groups set out in relet. New York should advise the Bureau of any results of this anonymous mailing and at that time consider resubmitting your recommendation to anonymously mail this editorial to all the Negro colleges in the United States.

Use commercially purchased stationery for this mailing and insure that it cannot be traced to the Bureau.

NOTE:

Enclosed issue of "WOJO," the newspaper of a black student group in New York City, contains an editorial critical of the Black Panther Party and its extremist methods. Since the Black Panther Party is currently attempting to recruit students, New York recommends this editorial be sent to other black student groups in New York to alert them to the true nature of the Black Panther Party. Since this mailing is anonymous, there is no possibility of embarrassment to the Bureau. We are holding New York's further recommendation to send copies of this editorial to all Negro colleges in abeyance until results of the first mailing can be evaluated.

RACIAL INTELLIGENCE
(BLACK PANTHER PARTY) (BPP)

Re Bureau letter, 11/25/68, requesting bi-monthly submission of counterintelligence suggestions regarding the BPP, and Chicago letter, 12/16/68, setting forth a counterintelligence suggestion regarding the BPP.

In accordance with Bureau instructions, no counterintelligence action has been taken in this matter.

The factional disputes within the BPP locally continue. Chicago LHM of 12/11/68 sets forth information reflecting that [redacted] of the Mau Maus, Chicago Negro youth gang, affiliated with the BPP, is in opposition to the current leadership of the BPP being provided by ROBERT BROWN, BOBBY LEE RUSH and FRED HAMPTON. Information has been developed that the latter three have used the local BPP headquarters for sex parties and have been challenged by [redacted] to act like revolutionists and not lovers. He is also reportedly writing a letter to National Headquarters of the BPP complaining about the present leadership and questioning its loyalty. 17

Chicago recommends that [redacted] be advised in an anonymous letter from a "disgusted Black Panther" of the many past organizational affiliations of BROWN and to a lesser degree of RUSH and HAMPTON. The writer would indicate an acquaintance of several years with BROWN and RUSH and would characterize them as opportunists and hustlers, out for their own personal gain, who go from one group to another with real allegiance only to themselves. It will also be alleged that BROWN and RUSH are sex perverts, the public knowledge of which could prove embarrassing to the image of the BPP. The letter would be handwritten, addressed to [redacted] and would be in street language, with appropriate use of obscenities.

As instructed, no action will be taken without prior Bureau approval.

NOTE:

In relet, Chicago advises that the BPP and the Mau Maus, Chicago Negro youth gang, under the [REDACTED] are having a falling out because of [REDACTED] opposition to current BPP leadership in the persons of Robert Brown, Bobby Lee Rush and Fred Hampton. [REDACTED] is disturbed over the fact that the three BPP leaders have been using BPP headquarters for sex parties. Chicago recommends that [REDACTED] be sent an anonymous letter signed by a "disgusted Black Panther" advising [REDACTED] of the fact that the three BPP leaders are opportunists who are using the BPP for their own personal gain. [REDACTED] will also be advised that Brown and Rush are sex perverts. Objective sought is to widen the cleavage between these two black extremist organizations which are currently loosely affiliated and thus weaken the black extremist movement in Chicago.

Recent activity in this field is as follows:

1. [REDACTED] affair. [REDACTED] true name [REDACTED] was interviewed 12/17/68 in San Francisco County Jail, with no attempt made to disguise the fact that Federal Agents were interested in him. At the conclusion of the interview [REDACTED] in the presence of Negro trustees, was thanked for his cooperation. [REDACTED] is already under suspicion of the Black Panther Party.

2. The KATHLEEN CLEAVER cash withdrawal. An agent of this office, monitoring the CLEAVER account learned that KATHLEEN had withdrawn \$33,000 in cash. This was subsequently disclosed in the press, backed up by a statement by the office of the U.S. Attorney verifying the accuracy of the account.

KATHLEEN, in a press conference on 12/23/68, claimed the story was an FBI plot to discredit her husband and the BPP.

Informants have stated this publicity has caused the BPP much difficulty in their continued fund-raising campaigns, as some people who formerly donated now were inclined to let ELDRIDGE CLEAVER defend himself, since he had so much money.

The San Francisco Office also participated in the idea of the State audit of student funds at San Francisco State College, which resulted in the disclosure that one check went to a black Student Union (BSU) leader, who purchased a high powered rifle with it. This disclosure was widely noted in the press and the news media called on the BSU to explain their policy on money and guns. The next step by the San Francisco State College administration appears to be a curtailment of the right of the Student Council to disburse the student activity money estimated at \$400,000 annually.

A serious power struggle is now taking place between the BPP and US, in which threats have been made against various leaders of these two black extremist organizations.

With respect to the feasibility of establishing an Afro-American cultural-type bookstore under the control of Bureau informants, WFO is of the opinion that such an operation is not practical at this time for the following reasons:

1) WFO is not currently operating any source in the racial field who is professionally competent to run a business of this nature.

2) Any such bookstore would necessarily be in direct competition with the [REDACTED]

[REDACTED] such competition would undoubtedly be looked upon unfavorably by the black extremist clique in the 14th Street area. Moreover, this would be the only logical area to run such a bookstore inasmuch as the area of 14th and U Streets is the center of extremist activity in Washington, D.C.

The attached LHM seems to indicate that the BPP in San Francisco is in a relatively quiet state at this time; informants have not been able to locate the classes of instruction or the men who formerly taught them. Speculation may indicate that the leaders are engaging in some underground type of work, such as crime, but no verification of this has yet come to light.

This material indicates that the BPP has had problems created for it by the revelation of the amount of money accumulated by ELDREDGE CLIVER in such a short time. Perhaps more than in any other field, the money question among the Negroes appears to be the most sensitive, and therefore the most exploitable of the counter-intelligence avenues.

BLACK PANTHER PARTY -
ELDRIDGE CLEAVER DEFENSE FUND

Eldridge Cleaver is the publicly named Minister of Information for the Black Panther Party (BPP).

A characterization of the BPP is attached.

The Oakland Police Department has advised that Cleaver's recent activities were as follows:

In April, 1968, while on parole from a California Prison for another crime, he participated in a shoot-out with the Oakland Police Department. After considerable court activity he was ordered returned to prison as a parole violator. He failed to appear on November 27, 1968 as ordered by the Parole Authority. He was due to appear in Alameda Superior Court on December 23, 1968 to answer the charges arising out of the April case; at that time he was free on \$50,000 bail. He failed to appear. Judge Folger Emerson declared the bail forfeit. According to the San Francisco Chronicle of December 24, 1968, Mrs. Kathleen Cleaver, wife of Eldridge, gave a press conference, at which time she announced that the friends of Cleaver would go to the public to raise what she called "ransom" money for him. She also denied that she had

A group of Black Panthers in a van, named Black Panther Party, was allegedly involved in a robbery of a service station in San Francisco. Officers responding halted the van, and a Negro named Bill Brent, identified as a Captain of the BPP, came out shooting, seriously wounding two officers. The whole BPP detail was supposed to be under the leadership of the San Francisco Captain of the BPP, known as Captain "Crutch", true name [REDACTED]. "Crutch" was interviewed by Special Agents of the FBI on [REDACTED] at which time he stated that he had been taking a group of young Panthers to a BPP disciplinary meeting, and did not know anything about the alleged robbery as he had gone to the men's room in [REDACTED]

BLACK PANTHER PARTY, aka
Black Panther Party for
Self Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by Bobby George Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

A source in the BPP has advised that they have discontinued their vendetta against [REDACTED] and the "US" organization due to his prominence and suspected support of the white community. The BPP feels that too much "heat" has been brought to bear against them; therefore, they are easing "off" "US".

In view of the above, the Los Angeles Office recommends holding in abeyance the proposed anonymous letter concerning the vendetta against "US".

He explained he desired to write a story about the organization and added he had already been in contact in recent days with ELIJAH MUHAMMAD and others [REDACTED] and had been given a tour of their new business enterprises in Chicago by them.

The above was discussed with Agents familiar with the NOI. It is felt [REDACTED] could be utilized in Counterintelligence Program if he were directed towards writing a story about the NOI with emphasis on the fact new NOI businesses such as the Salaam Restaurant, Your Supermarket, etc., are listed in public records as being owned by such Illinois corporations as Progressive Land Developers, Inc., and/or United Dynamics Corporation, Inc. These organizations have NOI officials as their officers or directors; however, there is no other apparent connection with the religious aspects of the NOI.

Re Denver letter 12/13/68.

As was pointed out in referenced letter, the Denver Police Department raided the Black Panther Party (BPP) headquarters on 12/7/68 causing extensive damage and that a meeting was held under the sponsorship of the Colorado Council of Churches on 12/15/68 to discuss the overzealousness of the Police Department.

*Letter to 157-199

Before the above incident, [REDACTED] advised that the Five Points merchants had organized an association and sent a delegation to see the black militants and the militants were told that the merchants would not tolerate any more damage to property or any interference of any type in their businesses. It was made clear to the militants that either they would stop any such activities in the future or the merchants would take whatever measures were necessary to stop them, even to the point of organizing a merchants' police force paid for by the merchants to meet the militants with the force that might be necessary.

This source also advised that in an effort to counter some of the activities of the militants in the high schools and to make youth aware of the public responsibility in the community, they were going to contact the Public Relations Department of the Denver Police Department and attempt to set up some public work shops in Manual and East High Schools where Negro businessmen and the Small Business Administration could meet with students and make them aware of how small businesses aid a community and help build a better community.

It is suggested as a counterintelligence technique that the Bureau make up a leaflet showing the true revolutionary cause of the BPP as established by the BPP leaders in the Oakland and Berkeley areas. This leaflet could be distributed either anonymously by mail or through Denver integration liaison sources to the merchants in the Negro area. This could possibly offset any gains made by the BPP in their recent exchange with the Denver Police Department. This leaflet should point out the criminal records of the leaders and be worded to the effect that it would put fear in the minds of the Negro businessmen to do business with any BPP member.

The Denver Office is open to any further suggestions by the Bureau to further implement this technique.

Reurlet 1-2-69.

For your information, the Bureau has adopted and is currently preparing a counterintelligence action similar to the suggestion contained in relet, that is, a technique aimed at exposing the criminal activities of Black Panther Party leaders.

In view of this, the counterintelligence suggestion contained in relet is being held in abeyance. You will be furnished additional information concerning this matter in the near future.

NOTE:

In relet Denver suggests that the Bureau prepare a leaflet showing the true revolutionary and criminal aspects of the Black Panther Party leaders for anonymous distribution in the Denver area. A similar type expose under the counterintelligence program, which would utilize Bureau contacts in the news media field, is in the preparatory stage and therefore, no action is being taken on Denver's suggestion at this time.

COUNTERINTELLIGENCE PROGRAM
BLACK NATIONALIST - HATE GROUPS
RACIAL INTELLIGENCE
(NATION OF ISLAM)

Although the Nation of Islam (NOI) does not presently advocate violence by its members, the group does preach hatred of the white race and racial separatism. The membership of the NOI is organized and poses a real racial threat. The NOI is responsible for the largest black nationalist newspaper, which has been used by other black extremists.

The NOI appears to be the personal fiefdom of Elijah Muhammad. When he dies a power struggle can be expected and the NOI could change direction. We should be prepared for this eventuality. We should plan how to change the philosophy of the NOI to one of strictly religious and self-improvement orientation, deleting the race hatred and separate nationhood aspects.

REC 49

100-1148006-571

In this connection Chicago should consider what counterintelligence action might be needed now or at the time of Elijah Muhammad's death to bring about such a change in NOI philosophy. Important considerations should include the identity, strengths, and weaknesses, of any contenders for NOI leadership. What are the positions of our [REDACTED] informants in regard to leadership? How could potential leaders be turned or neutralized?

JAN 7 1969

The alternative to changing the philosophy of the NOI is the destruction of the organization. This might be accomplished through generating factionalism among the contenders for Elijah Muhammad's leadership or through legal action in probate court on his death. Chicago should consider the question of how to generate the factionalism necessary to destroy the NOI by splitting into several groups.

RE: COUNTERINTELLIGENCE PROGRAM; (NATION OF ISLAM)
100-448006

~~CONFIDENTIAL~~

Legal action against the NOI on the death of its leader depends on the answers to several questions:

1. Does Elijah Muhammad have a will?
2. Is the NOI incorporated?
3. In whose name and where are NOI bank accounts?
4. In whose name are other NOI assets, such as mosque buildings, school buildings, the newspaper, Elijah Muhammad's homes, and NOI businesses?

Depending on the answers to these questions, probate law in Illinois, and whether Chicago might have a confidential source in probate administration, tying up the NOI in probate administration might be possible.

Chicago should examine the NOI from the above counterintelligence angle and advise the Bureau. Consider the possibility of drawing up specific counterintelligence recommendations, to be acted upon when necessary, with various contingencies covered.

Letter #1: This letter will be addressed [REDACTED] Los Angeles, California. The letter will bear the signature of a fictitious, Spanish-sounding name. The writer states that although he is not a member of the BPP, he is a Mexican who is trusted by BPP members. The writer advises that he has learned from BPP members that certain whites in the PFP who get in the way of the Panthers will be dealt with in a violent manner. The objective sought in this letter is to cause a breach between the PFP and the BPP. The former organization has been furnishing money and support to the latter.

Letter #2: A subscription request to the BPP newspaper will be submitted in the name of a deceased Negro formerly residing in Los Angeles. The letter will be addressed to the BPP in San Francisco, California, and will coincidentally contain an envelope purportedly used in soliciting donations for the defense of Huey P. Newton and Leroy Eldridge Cleaver, BPP officials. A dollar bill will be placed in the preprinted envelope for the Newton Cleaver Defense Fund, making it appear the envelope was inadvertently sent to the BPP in San Francisco, rather than Los Angeles. The desired effect would be to give the BPP in San Francisco the impression that funds are being collected in Los Angeles for Newton but that the money is being pocketed by Los Angeles Panthers. Objective sought is to cause a breach between the BPP headquarters in Oakland, California, and the BPP chapter in Los Angeles. *REC 11 160-448006-5117*

Many individuals in this country have belittled the strength of black extremists. While the number of black extremists may not be large at this time, they can have an incalculable effect on this country by spreading a doctrine of revolution and anarchy primarily to audiences of youth.

Since the Fall of 1966, black extremist, Stokely Carmichael, has spoken to live audiences of well over 1/4 million people in the United States including appearances at over fifty college campuses advocating a black revolution of violence and guerrilla warfare. He has also made frequent appearances on television, held many press interviews and written a book, as well as numerous articles. In addition, during a five-month trip abroad in 1967, Carmichael gave many speeches before large audiences advocating unity of the blacks throughout the world by violent revolution.

Black extremist, Eldridge Cleaver, who is currently a fugitive from justice, has in the past year spoken to over 35,000 people primarily at college campuses. If anything, Cleaver has been more vitriolic than Carmichael.

Some individuals in this country have belittled the strength of black extremists. While the number of black extremists may be small at this time, they can have an incalculable effect on this country by spreading a doctrine of revolution and anarchy in speeches before audiences of college students and other young people.

Since the Fall of 1966, black extremist, Stokely Carmichael, has traveled extensively throughout the United States advocating a black revolution of violence and guerrilla warfare. He has spoken to live audiences of well over 1/4 million people. Carmichael was one of the principal speakers before 125,000 at the Spring Mobilization Committee to End the War in Vietnam held in New York City on April 15, 1967. The remainder of his talks were primarily at over fifty university and college campuses.

This is only part of the story as Carmichael has also made frequent appearances on television, held many press interviews and written a book, as well as numerous articles. His exposure to the public has been formidable. Nor has Carmichael restricted his speech making to the United States. In 1967 he took a five-month trip abroad including Cuba, North Vietnam, China and several countries in Africa and Europe making frequent speeches before large audiences where he advocated unity of the blacks throughout the world by violent revolution.

Another black extremist, Eldridge Cleaver, who is presently a fugitive from justice, during the past year has also been active in giving speeches to over 35,000 people. These were primarily college audiences. If anything, these speeches were more vitriolic than Carmichael's in advocating a black revolution through violence.

COUNTERINTELLIGENCE PROGRAM, BLACK NATIONALIST-HATE GROUPS

from "The Crisis," magazine of the National Association for the Advancement of Colored People. This article condemns black nationalist extremists and is one of the first such condemnations by a responsible civil rights organization. The article received some notice in the regular press when it was published.

The Bureau feels this article may be of use in contacting potential sources, to show how responsible Negroes reject violence in racial matters. The article may also be of counterintelligence use. For example, in cases where we might want to alert an individual or organization to the extremist nature of some black nationalist group, we might also want to use the editorial to justify opposing extremists.

Any suggestions for counterintelligence use of the enclosed article should be submitted to the Bureau for approval. The article may be used as necessary in contacts with racial sources or potential sources.

The deepening crisis within the Negro community over its goals, glorified for () distorted by intensive and irresponsible media, is headed toward a major internal crisis requiring each of us to stand up and be counted. Differences among black folk in this country are not new, but a new ingredient has been added—the attempt by a small minority of black extremists to force compliance with its views and tactics. This nihilistic minority professes disdain for all "white" values while at the same time invoking and utilizing, as instruments of controversy, the worst practices of the most benighted stratum of white society, to wit, obscene name-calling, threats, intimidation, suppression of opposing views and violence.

The emergence of this swaggering band of black extremists demanding abandonment of democratic methods and goals and a reversal of the trend toward integration must be met head-on by the vast majority of Negroes who reject the minority's tactics and goals. To be sure, the new mood has been generated by white America's historic racism. In turn, the new black mood nurtures further white racism.

Campaigning in New York City last month, Senator Edmund S. Muskie, the Democratic nominee for Vice President, challenged responsible people of both races to speak up. "We must break through the terrible cycle of action and reaction, assault and counter-assault, hatred and response to hatred," he said.

"The only way to break this vicious cycle," Senator Muskie continued, "is for the moderates in both communities to cope with the merchants of hate and violence within their own ranks. To date, the moderates—both black and white—have been too silent."

On our part, as on the part of white folk, there is urgent need for strong and unequivocal re-affirmation of our commitment to the democratic processes as a means of attaining, here in our homeland, full, equal and unfettered rights for America's 22,000,000 black folk. This means a repudiation of the nihilism of the extremists who are shrilly and insistently espousing apartheid, racism, including anti-Semitism, intimidation and violence.

Most fatuous of the extremists' exhortations is the call for "black revolution"—the seizure of power by the Negro minority. Any revolution remotely possible in this country at this time would not be one that advances the position and cause of Negroes. Rather it would be a revolution of the Right suppressing not only the black community but also curtailing the basic liberties of the total society.

Reputed surveys and polls by reputable and impartial opinion testers show that this minority misrepresents the true views and aspirations of the majority of the nation's Negro population. A September, 1968, survey by the Columbia Broadcasting System found that the "great majority of Negroes still want integration and want to achieve equality through legal means. Only a very small minority of Negroes approve of violent tactics, nine out of ten in the survey expressing disapproval of violence to achieve equality."

Notwithstanding the evidence that the Negro masses remain committed to the program and tactics which have brought substantial gains in the struggle for equality, the voices within the Negro community which publicly express this majority view have been few and, often, lonely. Partly this has been because of a tendency on the part of the news media to by-pass spokesmen for the majority and to project the minority spokesman as the authentic voices of the Negro community. There is the additional factor that responsible leaders who speak out against the extremists have been subjected to threats of violence. Moreover, Negro leaders have traditionally been reluctant to speak out publicly in opposition to other black spokesmen.

But the time has come for speaking out loud and clear lest the entire race be branded as hate-mongers, segregationists, advocates of violence, and worse. The silent majority must let its views be known not merely in polls but also in print, on the restraint, and via radio and television. The time for silence or muted voices is past. The extremists must be answered promptly and forthrightly in the name of the majority. Their racism and anti-Semitism

exposed and scorned. Their advocacy of Jim Crowism and as retro-
gressive. () suicidal call for violence drives

for the advancement of Colored People in 1909. () Lloyd Garrison
expressed the hope "that the Conference will utter a powerful sound on
any point affecting the world's black. No part of it is too delicate for plain
speech."

So it is today. Let there be "no uncertain sound" on the issue con-
fronting us. To make the record clear, let us repeat again and again so
that none need be unaware of the Truth: Black America rejects and con-
demns segregation, racism, intimidation, suppression of free speech, and
violence. Let it be known that the preachers of hate, the defeatists afraid
to compete in the open market, the name callers who substitute epithets and
slogans for reason, the extremists who summon Negro youth to death in
fruitless shoot-outs with the police and the military--let it be known that these
media-created "leaders" are not our spokesmen.

Dissent, protest and militancy, yes. Intimidation, disruption, suppres-
sion of free speech, extremism and violence, no!

The time to speak up in no uncertain terms, to rally the silent black
majority to a constructive program of responsible militancy and resistance
to extremism, is now. Tomorrow may be too late.

These photographs were taken by the Newark PD Arson Squad on 12/1/68 in connection with the investigation of an explosion at 321 Hawthorne ave., Newark, the headquarters of the Newark Chapter of the BLACK PANTHER PARTY (BPP).

The Newark BPP alleged that individuals in police type uniforms threw explosives into their headquarters and the police surmised that BPP members were experimenting with materials including acid that could be used in a bomb and an explosion resulted.

When available, Newark will forward a photograph of firearms confiscated by the Jersey City PD in connection with the arrest of a Jersey City BPP leader.

Bureau airtel, dated 3/4/68.

The following information sets forth the summary
of the Counterintelligence Program for the Albany Division
as requested in re Bureau airtel:

1. Operations Under Consideration

The United Black Brothers of Syracuse has recently been established in Syracuse, N.Y., and investigation has been initiated to determine if the organization is a legitimate civil rights organization or a black nationalist organization. If investigation reveals the organization to be militant, the Albany Division is considering the possibility of sending anonymous memorandums regarding the militancy of the organization and its members to the landlord of their headquarters. It is expected that this may result in close scrutiny of the organization by the landlord and possibly their eviction.

A similar program is being considered for the Albany Chapter of the Black Panther Party. It is noted that the BPP originally obtained the residence at 20 North Lark Street as a headquarters but were ousted when the landlord was informed of their purpose for renting that residence, (the landlord was notified by the Albany Police Department). It is felt that when the BPP locates a head-

Seattle letter to Bureau, 12/16/68.

In response to Bureau instructions contained in
referenced Bureau letter to Baltimore, 11/25/68, the following
information is being furnished:

I. OPERATIONS UNDER CONSIDERATION

Seattle Division is currently preparing a biographical sketch of a local Black Panther member who has recently gained considerable notoriety in connection with various criminal activities. This BPP member, [REDACTED] is currently free on bond in connection with an armed robbery and a charge of assaulting a police officer. Upon completion of this sketch, and the outcome of local prosecution, the Bureau will be consulted regarding making it available to established news media contacts with the idea of publishing it to exemplify the type of individual usually connected with the BPP.

II. OPERATIONS BEING EFFECTED

A. The "expose" news special being considered
[REDACTED] is still in preparation.

B. No results have been reported by informants in connection with the "New York Daily News" notice of September 18, 1968, scheduled for distribution by New York Division.

C. No results reported by informants following implementation of operation outlined in Seattle letter to Bureau, December 2, 1968.

RAP TO YOUNG

SAN FRANCISCO -- Juanita Johnson, a black teacher, invited representatives of the Black Panther Party to speak to the students in her 5th grade class at John Swete Elementary School last week.

Panther members alternated handling the speaking engagement. They opened it by allowing the young students full participation. It was related to them who founded the Black Panther Party, when it was founded and why: Huey P. Newton and Bobby Seale, Founders. The rules of the party and the 10 Point Program were also discussed.

The students, who were all third-world, were full of questions but still knowledgeable about the Black Panther Party and its community functions. During a 50-minute "question and answer" session, students asked:

Student Question: What do you think of the politicians Wallace, Humphrey, and Nixon?

Panther Answer: If Brother Edridge Cleaver, our Minister of Information, doesn't get in it doesn't make any difference which of those three candidates get in because they are all the same -- pigs who want oppression of all black people!

Student Question: Was the Black Panther Party founded with the same ideas that Frederick Douglas, Harriet Tubman, and Marcus Garvey had.

Panther Answer: Yes and no. Douglas, Tubman, Garvey, and Huey P. Newton all had the desire to be free. But the Panther Party was mainly founded to decrease and eventually end the police brutality in the black community.

Student Question: I saw a picture with a lady and her baby in it and the baby was carrying a gun. What was that for?

Panther Answer: The name of that picture is "Hope". The mother represents one generation of freedom fighters. When this generation has either died or is killed, then this mother's child and all the other represented in that child's generation will be educated politically and militarily to pick up the gun; freeing the oppressed people of the world.

Student Question: Do Panthers carry guns? Where do they get their guns from? Do Jr. Panthers learn to shoot guns, too?

Panther Answer: Wait. The gun is a tool. A gun has never killed anyone. It is the person behind the gun that does the killing. The gun is merely a political tool for defense and the liberation of the black people. We can never let the gun rule us. We must rule the gun.

No, Panthers do not carry their guns all the time and Jr. Panthers get the same training as every other Panther. We buy our guns.

Principal

asked: Do you believe what the news media has said pertaining to the Black Panther Party?

Panther Answer: No. The white racist press has distorted all factual news about the Panthers ever since the Panthers organized. They have attempted to present the public with the image of Panthers as a bunch of leather-wearing, gun carrying hoodlums that are out to kill all the pig force and white people within urban areas.

Question: Are Panthers proud of what they are doing.

Answer: Right On, Politically Black and Proud!

The Black Panther members received an enthusiastic response from the young black students. Representing the Black Panther Party were sisters Valerie Bowman and Eunice Wallace, along with Panther Brother George Black -- all of the San Francisco Chapter.

Re Bureau airtel, 12/6/68.

The Buffalo Office has no available material along the lines requested in referenced airtel.

The Bureau may be interested in obtaining a copy of a film which was produced by the Los Angeles, California, Fire Department, a copy of which is now possessed by the Buffalo, New York, Fire Department as a training aid. This film was reviewed by the Buffalo Office in the latter part of December, 1968, and has been returned to the Buffalo Fire Department. This film, which runs for approximately 30 minutes, is a color film entitled "Firefighting During Riots." Accompanying it is a sound narration. It highlights the problems faced by the Los Angeles Fire Department during the riot which took place in the Watts area several years ago, which included attacks on the firemen traveling to and from fires, which fires were touched off during the riot, as well as sniping and other assaults on the firemen at the scene during these fires. Part of the film is devoted to the efforts of the Los Angeles Fire Department to cope with these problems.

It is suggested that such a film would be of value to the Bureau, not only for lecture purposes to Agents, but in police training classes. It is believed that the Bureau could obtain a copy of this film through the Los Angeles Office.

It represents a responsible position on the part of the Negro element in the San Francisco Bay area. Because it may not have come to the attention of many school administrators, it is recommended that copies of it be mailed to colleges and high schools in the San Francisco Bay area where there has been some activity on the part of black students seeking to gain power on the campus.

The article could be duplicated or reprints could be ordered. Mailing could be anonymous although it could be mailed by some organization such as the "Oakland Post" itself, the NAACP, or the Urban League.

The Negro's Options

The disorders that continue to plague San Francisco State College give this paper an opportunity to comment on the options that are available to the black students and their counterpart, the Negro man in the streets. Without attempting to make a judgment on whether or not to support any given militant disorder, it has become increasingly clear that the Negro masses are consistently taken advantage of by the treatment given to these disorders by the press and by the aggressiveness of black and white militants, as they pursue what they say are legitimate goals. What is or is not a legitimate goal, in the first instance, must be determined by each individual and one of the most deep-seated precepts of a democracy is that the acts of a party in exercising his rights must take into consideration at all times the acts and feelings of others.

There are approximately 17,000 students attending San Francisco State College. There are probably less than 250 of them who feel keenly about the announced goals of the strikers. There is without

question a great mass of black people who do not see the establishment of a black culture department next week at San Francisco State as a goal sufficient to justify grinding the college to a halt. Hundreds of the black students and thousands of the whites who attend that college regard the continuing of their education and the laying of the foundation of their future as the paramount goals of their attendance at college. On this basis they would take a completely different tack in confronting the administration on matters concerning the school's curriculum.

ENCLOSURE

It is not inconsistent that a black student might decide that a black curriculum is not the all-important thing in his development. Many Negroes know that a diligent and concerned black student who wishes to get educated as to his cultural heritage and wants to explore the history of the black man's contribution to the world, may do so on his own time outside of school hours, or may, if he wishes, enroll in cultural and history classes on Negro history in any number of colleges and junior colleges that now are giving these courses. To get an excellent review of Negro history one needs only at this point to read a series of articles that are appearing in Life Magazine which, in detail, present to Life's millions of readers, among which may well be any Negro who chooses to buy the magazine, in-depth pictorial and editorial representation of the Negro in America.

Young black students all over are beginning to question the goals of militant black students on our campuses. In close confrontation with these militant leaders, black students conscientiously attempting to get at the bottom of the announced goals of the militants, are not satisfied with the answers to the questions that they receive from these, their contemporaries.

MAJORITY AFTER AN EDUCATION

The majority of the black students in universities and colleges are there to get an education, to lay a foundation for their careers, to meet and converse with other students and with faculty members who have the ability to articulate and pass on to them an informed point of view which may be of great value in the years ahead. Most of these positively oriented students understand that

life is not a bed of roses and that there is a necessity at this point for changes to be made in the race relations of this country. In sober judgment, however, they realize that Rome was not built in a day and that only by the constant long-term battling with just and understandable demands will the ultimate triumph of total race equality be realized in this country. These students, exercising reasoned judgment, will, in the final analysis, be the ones who make the greatest contribution to the well-being of this country and to their race.

Many students not participating in the destructive rioting that plagues many school campuses disagree with the action of the militants but are tolerant in taking the position that 'to each his own.' They do not see the justification of their moving to stop the militant activity. The tragedy of this line of reasoning is that those leading the riots on the campus do not reciprocate in their judgment nor do they attempt to see that in their protest they conduct themselves in a way that will not steal valuable hours and teaching from those students who wish to attend classes and to pursue their education as is their right to do.

Because of this faulty judgment, there is sound justification for the use of all the force necessary to allow the campuses of this country to continue functioning so that those students who wish to attend their classes and receive their education may have the right to do so. The question of what is excessive force, whether the police over-react or not, what is justifiable student resistance, are all lost in the necessary immediacies and judgment of men charged with the responsibility of running the

universities, attempting to do what they see at any given time is necessary to do in order to keep the campuses in order. It is clear to this newspaper, as we reflect upon the total athletic picture, that the Negro athletes at San Jose need direction and guidance. They, like many persons, have misread history. They must understand that there is no free lunch. In order to be successful and to gain the support of men of good judgment, it is first necessary for their goals to be justified and their means of obtaining them understandable, practical and proper.

ERRORS IN JUDGMENT

All men are subject to error in judgment, and young college militants are no exception. The more they push and the greater their demands, the greater their chance for error. As the pendulum of demand swings, it often moves too far to the left or right. In observing the athletes' demands at San Jose State college, one is forced to wonder at their soundness and judgment. Two weeks ago the football players decided not to play against the Sun Devils of Arizona. At the last minute they agreed to do so and suffered a defeat of over 50 points. Last week they refused to play against Brigham Young university in Utah and the white athletes, without their help, won the game while they sat in the stands and looked on. Now the confrontation has spread to the point where all black athletes may very well lose their grants and aid and leave San Jose State as a major college without Negro athletic participation.

Thousands of Negro athletes participate in athletic programs throughout the United States and hundreds of thousands of young high school students look to them as examples of the ultimate opportunity to participate in athletics on the college level and possibly later become professional athletes gaining fame and fortune, to say nothing of later entering the coaching professions. These young athletics must wonder what is the reasoning behind the activity of the athletes at San Jose State.

NOTE:

The editorial in the "Oakland Post," California's largest Negro newspaper, condemns extremist and militant Negro students who have disrupted the educational processes by their actions at San Francisco State College. It stresses the irresponsibility of denying an education to many Negro students by the few who demonstrate and puts the newspaper squarely behind college administrators who use all necessary force to stop disruptions to classes. Mailing this editorial anonymously to other college administrators would protect the Bureau's interest and might suggest to them there is support in the Negro community for standing firm against these agitators.

RE: COUNTERINTELLIGENCE PROGRAM

RACIAL INTELLIGENCE

Re St. Louis let to Bureau, 9/6/68.

The following information is submitted regarding racial intelligence in this Division:

1) Operations Under Consideration.

The Black Liberators have recently been involved in two attacks against Black people. In December they kidnapped, robbed, and brutally assaulted [REDACTED]

Three Black Liberators were subsequently arrested by SLPD in connection with this. On 1/4/69, the business firm of a Black capitalist, [REDACTED] was fire-bombed, in all probability by the Black Liberators.

St. Louis is presently considering the best way to exploit and publicize the above in a counter-intelligence activity.

2) Operations Being Effectuated.

There are no current operations being effectuated.

3) Tangible Results

Two counter-intelligence operations were effectuated in this Division since the date of referenced communication and both met with success.

In November, 1968, 200 flyers were anonymously mailed to various Black leaders and organizations locally which praised Zulu 1200's and criticized the Black Liberators. Informants and sources subsequently advised that the flyers and the resulting publicity in the local newspapers were responsible for all but eliminating the previous good will that existed between the two groups. It also hurt white liberal support of the Black Liberators.

Later in November a letter was sent to [REDACTED], purportedly from some SDS students at Washington University. It praised him and criticized [REDACTED] a [REDACTED] and [REDACTED] "right-hand man". The letter apparently had an adverse effect on the relations between SDS and the Black Liberators. It is also possible that the letter germinated a seed of distrust in the friendship of [REDACTED] and [REDACTED].

4) Developments of Counterintelligence Interest.

Since the date of referenced communication, the Zulu 1200's have become almost dormant; the Black Liberators are recruiting younger and younger members to bolster their sagging membership. Conversely, the Association of Black Collegians (ABC), flushed with its relative success during its December sit-in at Washington University, seems to be increasing both its influence and membership. However, this group seems to be legitimately interested in racial pride and community betterment, and not as concerned with adopting a "militant" posture.

ACTION, a local dissident group of CORE, is apparently drawing a close to the Black Liberators. One of the Black Liberators' favorite meeting place is the residence of [REDACTED].

St. Louis is attempting to formulate a plan which would frustrate any strong degree of cooperation between ACTION and the Black Liberators.

Re Bureau letter, 1/6/69; Chicago letter, 12/16/68;
and Chicago airtel and LHM, 1/7/69.

The first two of the above communications were
captioned as above, the latter under the BPP caption.

In the Chicago letter of December 16, 1968, a
suggestion was made that an anonymous mailing be sent JEFF
FORT, leader of the Blackstone Rangers, advising of BPP efforts
to discredit him, and in effect to "take over" the Rangers. As
events have subsequently developed, as set forth in referenced
Chicago airtel and LHM, the Rangers and the BPP have not only
not been able to form any alliance, but enmity and distrust have
arisen, to the point where each have been ordered to stay out of
the others territory. The BPP has since decided to conduct no
activity or attempt to do any recruiting in Ranger territory.

It appears therefore that the letter as originally
intended at this point would serve no useful purpose. The end
in view appears to have been very quickly arrived at, in great
measure by virtue of the inherent inability of two such volatile
and power conscious groups to derogate any of their status or
assumed authority to the other.

From information recently received, it appears, however,
that the BPP has not entirely abandoned all hope of utilizing
the Rangers for their own purposes. Some feeling has been evident
that FORT may not continue indefinitely in his position of leader-
ship with the Rangers, most probably a reference to various
criminal charges facing him. It is clear, however, that so
long as he is in this position, any working arrangement between
the two groups will be on Ranger terms.

Consequently, Chicago now recommends the following letter be sent FORT, handwritten, on plain paper:

"Brother Jeff:

"I've spent some time with some Panther friends on the west side lately and I know what's been going on. The brothers that run the Panthers blame you for blocking their thing and there's supposed to be a hit out for you. I'm not a Panther, or a Ranger, just black. From what I see these Panthers are out for themselves not black people. I think you ought to know what their up to, I know what I'd do if I was you. You might hear from me again."

"A black brother you don't know"

The above would be sent to FORT in care of the First Presbyterian Church, 6401 South Kimbark, the widely publicized headquarters of the Rangers.

It is believed the above may intensify the degree of animosity between the two groups and occasion FORT to take retaliatory action which could disrupt the BPP or lead to reprisals against its leadership.

Consideration has been given to a similar letter to the BPP, alleging a Ranger plot against the BPP leadership, however, it is not felt this would be productive, principally since the BPP at present is not believed as violence-prone as the Rangers, to whom violent type activity, shooting, and the like, are second nature. There is also the possibility that if a future contact between the two were to take place, and it became apparent that both had received such communications, then an outside interest would be somewhat obvious.

Chicago will take no action regarding the above, pending Bureau authorization.

Re Chicago airtel dated 12/24/68, and Bureau letter dated 1/6/69.

[REDACTED] was in contact with Agents of this Office who are familiar with certain aspects of the Nation of Islam (NOI).

The interview was cordial and [REDACTED] appeared to have an awareness of some of the economic aspects of the organization. He was most interested in NOI properties and businesses such as the Salaam Restaurant, Your Supermarket, etc. He was furnished public record material regarding ownership of various NOI business undertakings, incorporation data regarding Progressive Land Developers, Inc., and United Dynamics Corporation, etc. He appeared most interested in slanting his article towards possible exposure of NOI involvements in non-religious matters and the effect this might have on the Negro community and the NOI membership.

[REDACTED] questions were all answered, where possible, from public source material. It was suggested, and he concurred, that he recheck some of the older data in various county records to be certain the data has not changed.

[REDACTED] was advised the interest of the FBI in the NOI was not to be implied or inferred in any manner in any article he might write. [REDACTED] readily agreed to this and seemed totally aware of the necessity for this precaution.

[REDACTED] advised he had been doing some groundwork on the NOI but of late had been unable to obtain a response

This letter would be forwarded to the Atlanta Division for mailing from that locality as [REDACTED] is from Atlanta, Ga., and SNCC headquarters has traditionally been in the Atlanta area, all factors having a bearing on the possible creditability of the contents of above letter. Additionally, by mailing this letter from Atlanta, Ga., it tends to distract attention from any local persons as the possible preparers of the letter.

III. OBJECTIVE

The objective of the foregoing anonymous letter would be to discredit [REDACTED] by inferring he is a police informant; additionally, it would draw attention to his expensive travel to abroad and possible association with white female companions.

None of the data mentioned in letter will compromise any Jackson Division informants.

IV. RECOMMENDATION

It is recommended that the above proposal be approved for preparation and execution by the Jackson Division at the earliest possible date.

[REDACTED] Both stated they had previously read this article and agreed 100 per cent with its content and are of the definite opinion that responsible Negro leadership, certainly in Kansas City, Mo., should proclaim their views (along the same views outlined in the article) who oppose any seeding or growth of black extremism in Kansas City, Mo. They recall discussing this need between themselves and with [REDACTED] recently because of an apparent increasing mood nationally and to some extent locally to adopt and/or carry out publicized Black Extremist views and activity elsewhere in the country. [REDACTED] as well as other racial sources in the Kansas City Division continue to state there is no known actual forming or existence of a Black Extremist group. However, the seeds of possible Black Extremism are believed to be dormant in the Kansas City area in the mood of several Negro youths.

[REDACTED] stated that [REDACTED] knows the author of the article which appeared in "The Crisis" and that [REDACTED] plans to publish this article from [REDACTED] reprint, in [REDACTED] at an early date unless there is some restriction as to its republication.

Counterintelligence Operations in Effect
Against the Black Panther Party (BPP)

An anonymous letter is being sent to [REDACTED] in which it is set forth that the BPP has made statements in closed meetings that when the armed rebellion comes the whites in the PFP will be lined up against the wall with the rest of the whites. It is hoped this will cause friction between the BPP and the PFP.

A three-month subscription to the "Black Panther Newspaper" has been sent to the Black Panther Party, Box 2967, Custom House, San Francisco, California, 94126, from a deceased Negro. In the same envelope is a \$1 bill in the preprinted envelope for the Newton-Cleaver Defense Fund with a Los Angeles address indicating that the Los Angeles BPP has been soliciting donations and converting to own use. It is hoped this will cause disruption between the BPP of Oakland, California, and Los Angeles.

Counterintelligence Operations
Under Consideration

Referenced letter pointed out that the BPP objected to [REDACTED] use of the BPP to spread Communist Party (CP) ideology. The BPP is considering the possibility of expelling [REDACTED] from the BPP. The Los Angeles Office is considering what action might be taken in this regard to cause further disruption within the BPP.

Succinct summary of Black Nationalist Movement in
Indianapolis Division:

A. Nation of Islam (NOI)

The NOI has noticed an appreciable drop in total attendance in the Indianapolis Division, with a total of about 140 to 145 persons attending meetings. Responsible for the drop in attendance is the South Bend mosque which before had 100 to 125 persons, and which now has been having only 50 persons in attendance.

There are seven cities in the Indianapolis Division with temples or mosques and they are Evansville, Fort Wayne, Muncie, Gary, Indianapolis, East Chicago and South Bend. Evansville, East Chicago, Fort Wayne and Muncie are all struggling with only four to six members. Muncie no longer has a place to meet which adds to their existing struggle. Indianapolis had 27 members and Gary has about 45 members at present. The only two mosques are #31 in South Bend and #33 in Gary, Indiana.

The NOI groups in the Indianapolis Division have not caused or planned any violence to date, but the possibility for such is always present. The ministers of the groups in Indiana received their instructions from NOI headquarters in Chicago, Illinois and adhere to the teachings of ELIJAH MUHAMMAD, their leader.

B. Radical Action Project (RAP)

RAP, also known as Black Radical Action Project (BRAP), continues to operate in Indianapolis and are now at a new location, 2264 North Meridian Street, Indianapolis. [REDACTED] continues to [REDACTED]

[REDACTED] RAP has received several grants or funds from various church and civic organizations and is presently the most financially sound group in the Indianapolis Division. RAP has used their funds primarily to help the black community to date by giving toys to children at Christmas, food at Thanksgiving, and helping to pay defense attorney fees for various Negro persons who have been arrested. In addition, their funds help to keep [REDACTED] and the other leaders of RAP financially well endowed. [REDACTED]

[REDACTED] RAP also runs an Afro-American Book Store and Art Shop, which is on the first floor underneath RAP headquarters, which is on the second floor. [REDACTED] of the book store. The book store also helps to aid RAP financially.

RAP to date has operated within the framework of the law and no violence has been attributed to them. As long as they continue to have funds, it is felt that they do not pose a threat of violence; however, should this change, a given incident might change their present attitude. The size of their organization at present is approximately 20 persons at most who are considered active.

C. Black Panther Party - Indianapolis Chapter (BPP)

The BPP is located at 113 West 30th Street, Indianapolis, Indiana, and as of the last several months has been the most active organization in Indianapolis. The BPP initially had a large following when they began in about October, 1968, but now have only about 10 to 20 persons who are active. There has been dissention among the leaders since its inception with the former Minister of Defense leaving the organization. The present [REDACTED] Negro male, born [REDACTED]

[REDACTED] mentioned above.

IP 157-761

The present Minister of Defense [REDACTED]

[REDACTED] is presently the spokesman for the BPP in Indianapolis and from all appearances seems to be taking over control, with [REDACTED] moving into the background. All activities of the BPP have been followed by letter sent every other week.

D. Afro, Afro-American Student Association (AAASA)

The Afro, Afro-American Student Association, at Indiana University, Bloomington, Indiana, was formed during the first semester of the 1968-69 academic year, with [REDACTED] as the organizer. [REDACTED] writes articles for the IU "Spectator", weekly newspaper of Indiana University, but does not write concerning the AAASA. The organization has had meetings but has not proposed any demonstrations or made any demands on the university. A similar group formed in South Bend, Indiana, also has very limited activity. They proposed a picket line and demonstration to be held at the UCLA vs. Notre Dame basketball game, which was nationally televised; however, school authorities stated that they could demonstrate in the lobby only and not on the court where the television cameras were or they would be arrested. The group, therefore, did not proceed with the demonstration as they could not get in front of the cameras which was what they wanted.

1. Operations under Consideration

Plans under consideration at this time include continuation of interviewing the active members of the various organizations and, in addition, to try to continue to promote the jealousies and differences of opinion of the various groups and leaders through informants and interviews.

P 157-761

2. Operations Being Affected

Contact with [REDACTED] as been continued with the purpose of helping to keep the various groups and leaders of the community separated, thus not allowing a mass uniting of the Negro or black community. Other operations have included encouraging the jealousy between the BPP and the other various groups, as the BPP was rapidly gaining popularity. The Negro community was made aware, however, of the misuse of these funds by the BPP through informants and other groups and, therefore, their membership has fallen from over 200 persons to about 15 active members which they now have.

3. Tangible Results

Despite the fact that Indianapolis has about a 25 per cent Negro population, the fact exists that the various Negro organizations have not united to date and no major disturbances have taken place.

4. Developments of Counterintelligence Interest

In interviewing various members of the different organizations, successes of their competition are pointed out in a way so that they become more jealous of their brothers in the other black organizations. Using informants in this manner has also helped to add to the animosity between the various groups and has served to further help keep the groups from uniting.

For the information of the Bureau, the 1/18/69 issue of the "Forward Times", leading Negro newspaper, Houston, Texas, carried a two page article including narrative and numerous photographs relative to a social event which was held by Houston NOI Mosque No. 45. The photographer for the "Forward Times" newspaper was authorized to photograph and prepare this article by RAYMOND 5X WATLINGTON, the NOI Minister at Houston.

It is felt that this is an opportunity to conduct a counter-intelligence move against the NOI and the following proposal is being made:

It is proposed that a communication be directed from New Orleans to the NOI headquarters in Chicago incorporating this two page article and noting with alarm that this was allowed to take place with the permission of RAYMOND WATLINGTON because of the possible repercussions which can occur by the publicity. It is noted that there were people in attendance at this event from Dallas, San Antonio and New Orleans Divisions as well as Houston. The following cover letter for the article is suggested:

"Dear Sir

"I have always been extremely interested in the NOI movement but have recently attended a social function of the Houston NOI and was surprised by the fact that during the social activity a news photographer was allowed in the Houston Mosque to take photographs of all the persons in attendance. I for one was astounded and even though I tried to keep away from the photographer, I am not sure but what he also got my photograph. I feel that Minister WATLINGTON put many of us in an embarrassing situation by this ill

Ticklish Assignment Turns Warm

by EDDIE WATSON, Staff photographer

WHEN I accepted the assignment from the Managing Editor and noted a ticket to a banquet, my first thought was of a good meal. After noticing where and by whom the banquet was being given, I thought I had better go home and eat.

You see, my ticket was for a Muslim banquet at the Houston Mosque!

I was assured by my Managing Editor, Varea Shields that the ticket was to get me and my camera into Mosque #45 on Polk Avenue. I started to take my old camera on this assignment because I had heard so much you-know-what about the Muslims. I thought about what I had read about the Houston Muslims kicking the white press out of a meeting not too long ago.

After letting the FTimes office staff know where I was going, I started getting all kinds of advice. Some said there would be no meat served at the banquet. Some said I would be searched before being allowed to enter. I was told to keep my eyes open, but not to ask too many questions.

I went home and told my lovely wife that I was going to attend a banquet and would have my dinner there. She was elated because she would not have to cook.

I looked at the ticket and noted that the banquet started at 6:00 p.m. and wondered why I was told to be there between 8-8:30 p.m.

I left home in plenty of time to be there at 8:00 p.m., but I drove slowly to kill as much time as possible.

When I finally arrived, I was met by a man who showed me where to park. I got my camera and park, put extra film in my pocket, got my pad and locked my car. As I reached the door to the Mosque, I discovered that I had forgotten a pencil. But the man who had helped me park gave me his pen with the compliments of the Muslims. The man had been very nice--every reply had been, "Yes sir," "No Sir,"

Two men in black suits opened the Mosque door for me and on the inside I met my contact. I was expecting somebody to stop and search me, but that did not happen.

Minister Raymond X, my contact, shook hands and invited me inside the banquet room. I asked when the major speech would begin and was told it had been given.

RAYMOND X carried me directly to the guest speaker and had him to stop eating and pose for a photograph. The minister told me it was all right to take a picture of any kind that I wanted to and that he would help me identify them.

Minister Raymond X also told me he would show me how the men were honoring the women. He said that the men were all working in and around the banquet room, and that all the women had to do was sit and the men would serve them.

All the Muslim women there wore long dresses and something like a scarf on their heads. Even the little girls wore something on their heads.

I tried to get a glimpse of the food, but the serving had just started and I could not see anything but some black roll-type bread.

I asked Raymond X if I could go and see where the food was being prepared. I was carried upstairs and got a good look at the food. I did not recognize any part.

I talked my way from table to table and answered questions such as: What newspaper did I represent? What I would do with the photos? Everybody said, "Yes sir" and "No sir." The Muslim sect is very courteous and polite, even to members of their own group.

AFTER WALKING around and taking pictures here and there, I was ready to eat. The men and women smiled, but were involved in little conversation at this point.

I went upstairs alone and told one of the white-coated waiters that I wanted to eat. I was asked

100-11168-1106-615

ENCLOSURE

131

my choice between beef or turkey. I had roast beef, two vegetables and one black roll. I was offered coffee, but declined graciously. I had apple pie with breaded crust for desert. I enjoyed every bit of the food.

After eating, I went downstairs for more photos. Everyone was very kind and courteous.

A band from San Antonio was there and playing. There was no dancing. But from the expressions on faces in the audience, everybody enjoyed the music, talking as they did so.

JUST THEN Raymond X asked me if everything was all right. I assured him it was and that I would like some pictures of the women. He said he would send them out into the hallway for photos. In the hallway was a small table set buffet-style with the usual things--potato chips, olives, crackers, devils eggs. The only drink I noticed was water and coffee.

The honored women came out into the hall and I was told lovely Beverly X was their chief in Houston. I found out that there were three women chiefs--they're called Captains--from other cities present.

As I arranged the women for pictures, I would sometimes use

my hands, putting one hand on a woman to place her in position to make better photo composition.

After the second photo and hand action, a man walked up behind me and whispered in my ear that it was a sin for me to touch their women and not to put my hands on them. I thanked him and never looked backed to see who had given the advice.

My photo session was soon over because I had already taken over my quota. It was almost 10:00 p.m. and the dinner was scheduled to be over at that hour.

OTHER HOUSTON honorees (from left) Helen, Violet, Barbara, Beatrice,

So, I started packing my equipment and there stood Minister Raymond X asking if I had enjoyed myself.

The Mosque door was opened for me and I was out in the good night air. I took a good big breath of air and started for my car. And behold, there was a man in a black suit walking with me. The man waited until I locked my camera in my car trunk and saw me off. The man in the black suit was very kind and courteous. He said goodnight to me.

HO--HUM. . . It was just another night, nothing unusual--unless touching the wrong woman is unusual.

Buffet Dinner Honors Muslim Women

Houston -- Nearly 300 Muslim and non-Muslim visitors were on hand to partake of a 15 course buffet dinner given in the banquet room of Muhammad's Mosque #45, 3400 Polk Ave. Airlines and automobiles brought many of them from such cities as Dallas, Tyler, San Antonio as well as Shreveport, Lake Charles and New Orleans to participate in honoring the M.G.T. & G. C. C. (Muslim girl training and general civilization class) of the above mentioned cities.

M.G.T. and G. C. C. is the name given to the training of Muslim women and girls in North America. In these classes they are taught how to keep a clean house, how to rear their children, how to take care of their husbands, sew, cook and in general how to act at home and abroad.

The Muslim followers of the Honorable Elijah Muhammad feel that the woman should be treated in a way to show the world how much the men love and value them. Most Muslim women do not work at outside jobs. The Muslim husband feels that it

would be better for him to have two jobs than to deprive his children of the necessary companionship of their mothers.

Minister Raymond X, who conducts most of the lectures at the Mosque, told a FTimes reporter that the dinner was given and served by the F.O.I. (men's training class). He stated further that it is because of the fact that the Muslim women dress in a way to please their husbands alone, that they are held in such high esteem.

"In a day of mini skirts and micro minis, it is refreshing to see modesty in women," Raymond X noted.

Minister Isalah Karriem of Muhammad's Mosque in Dallas, Texas was the guest speaker. He delivered a forty minute lecture on the need for the black men in America to learn to respect and value the black woman in the same way that he, the black man, has been taught to value and respect the "other man's (white) woman."

He also pointed out the fact that it was from this same M.G.T. class that heavyweight champion Muhammad Ali got his present wife.

The fifteen course dinner was masterminded by brother Lieutenant Sam X, who has twelve years experience behind him as a "Chief Cook".

Prime rib of beef, chopped sirloin of veal, individual broiled red snapper, smoked turkey, wheat bread and muffins, baby meat balls, salads, deviled eggs, baked potatoes, garden peas, cheese wedges, kosher salami, dips and spreads were some of the foods on hand.

For the four hours that it took to serve the complete dinner, the guests were entertained by a Muslim musical aggregation named "THE MAGNIFICENT SEVEN". The group is headquartered in San Antonio, Texas and is reputed to be one of the best all-around musical combos in the southwest.

Tunes made famous by such notable artists as MILES DAVIS, JAMES BROWN, JOHN COLTRANE, WILSON PICKETT, FREDDIE HUBBARD, MUDDY WATERS, THE SUPREMES and ART BLAKEY were vehicles through which the "seven" demonstrated their versatility.

THE MAGNIFICENT SEVEN from San Antonio provided the music for the Muslim Buffet Banquet honoring their women.

Reurlet 1-20-69.

Relet suggested an anonymous letter be sent Nation of Islam (NOI) Headquarters in Chicago, Illinois, complaining about a newspaper photographer taking pictures of an NOI function with the minister's permission. The purpose of the letter would be to embarrass the local NOI leader.

The Bureau feels that the NOI thrives on publicity and this letter would not have the intended effect. The NOI newspaper freely identifies NOI members and publicizes their photographs and the NOI has never advocated secret membership.

Therefore, your suggestion is not being approved at this time.

Information is received on a sporadic basis from various informants that several of the BPP members have current local warrants outstanding for their arrest. These members have been instructed that if they should be stopped for any reason by a local officer, they are to give a fictitious name and address. In the event information is received concerning any activity of this nature, on a timely basis, the information concerning the fictitious name along with the true name of the individual stopped will be furnished to the local police department provided Bureau approval for same is received.

II. OPERATIONS BEING EFFECTED

The operations which have previously been authorized by the Bureau concerning KENNY DENMON have been effected. The results of these operations will be reported in this letter under Tangible Results section. [REDACTED]

A second operation which is currently in effect is the mailing of the article written by CATHERINE BASIE which appeared in the "New York Times" on 9/18/68, to prominent Negro businessmen in the San Diego area. No tangible results, to date, have been realized from this activity. [REDACTED]

III. TANGIBLE RESULTS

KENNY DENMON, former Minister of Information of the BPP in San Diego, California, now appears to be completely neutralized. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

BPP in San Diego became enraged, telephoned BPP Headquarters in Oakland and was advised to allow DENMON to go ahead and make the speech and then to "liberate" the money [REDACTED]

[REDACTED] advised that DENMON is extremely frightened and fearful for his own life. He fears reprisals from members of the BPP and as a result has completely dropped out of the BPP. He is not engaging in any type of black militant activities and the BPP members are forbidden to mention DENMON's name either during or outside of their meetings [REDACTED]

IV. DEVELOPMENTS OF COUNTERINTELLIGENCE INTEREST

Reports are just beginning to come in from informants in both the BPP and US organizations in San Diego concerning the killing of two BPP members in the Los Angeles area on 1/17/69. It would appear that the above activity will even further split the factions of the US group and the BPP.

It also appears that KENNY DENMON has been completely neutralized not only as far as his BPP leadership is concerned, but any participation he might have in the black militant movement. The BPP in San Diego has now been taken over by [REDACTED]. As a result, counterintelligence action directed both at [REDACTED] has been requested and will be put into effect immediately upon receipt of Bureau approval.//

Philadelphia has received permission to have informants circulate rumors about money being stolen from Black Coalition. The following is furnished for the information of the Bureau. This has been furnished the Bureau under separate cover entitled Black Coalition.

Black Coalition is completely broken up because of a fight between Black Institute and other members of Black Coalition. Black Institute is composed mainly of members who are friendly with and follow [REDACTED] many of whom are RAM Members.

[REDACTED] of Black Coalition, has been dismissed from his job. The PHPD have identified a police officer who has been undercover with [REDACTED] of Young Militants. Through testimony of the officer, 11 men have been arrested on various charges including robbery, all of whom are connected with the Black Institute.

It is felt that rumors circulated by Philadelphia informants and sources helped to break up the Black Coalition.

COUNTERINTELLIGENCE PROGRAM
BLACK NATIONALISTS - HATE GROUPS
RACIAL INTELLIGENCE

Remylet 1/16/69.

The following counterintelligence measure as regards to the Student Nonviolent Coordinating Committee (SNCC) is recommended by the Atlanta Division:

I. BACKGROUND

The financial condition of the SNCC has been in a continuing decline since June, 1966, when STOKELY CARMICHAEL was elected National Chairman and coined the slogan "black power." The election of H. RAP BROWN as chairman in June, 1967, did not develop the leadership, program, or policy for the organization required to bring it into the avenue of acceptance by the general public or other civil rights organizations.

In June, 1968, the Central Committee felt SNCC should be reconstructed by equalization of responsibilities by creating 10 deputy or vice-chairmen. To date it appears this new endeavor has failed to breathe any significant financial life into the organization.

[REDACTED] of the Atlanta Office of SNCC, sensing that an open appeal by SNCC for financial support would not be received favorably, decided, probably on his own initiative, to make appeal for a contribution to SNCC by utilizing a name other than SNCC, believing such an appeal would be fruitful.

AT 100-7182

Apparently working on this theory, [REDACTED] prepared a lengthy letter setting forth the financial need for an organization involved in a civil rights endeavor in Atlanta. [REDACTED] referred to this organization as the Afro-American Society of Greater Atlanta. This letter was sent to the National Episcopal Church in New York City requesting a grant of \$30,000 which would be used in setting up such an office in Atlanta.

It is reported that the National Episcopal Church favorably considered this request and sometime in January, 1969, will make \$34,000 available to the Afro-American Society of Greater Atlanta.

This grant is known only to a limited number of SNCC associates in Atlanta which raises the question of [REDACTED] intention of following through with his original stated purpose once the money is received.

During staff meetings of SNCC which were held in Atlanta [REDACTED] was expelled from SNCC because of Black Panther Party activities and while in the office [REDACTED] was physically beaten by a proponent of the SNCC theory because of his [REDACTED] support of the Black Panther Party. Despite this beating, [REDACTED] subsequently appeared during the staff meetings and pled for reinstatement in SNCC. Action on his request was deferred until the staff meeting scheduled for [REDACTED]

[REDACTED]

II. PROPOSED COUNTERINTELLIGENCE MEASURE

It is proposed that the following anonymous letter be handwritten by a specially selected person, probably a relative of an Agent, and addressed to [REDACTED]

[REDACTED]

[REDACTED]

What is going on with the money from New York for the new organization? Sure would like to get in and help spend some of that cash. Keep me in mind b

[REDACTED]

This letter would be forwarded to New York for mailing from that locality as the National Episcopal Church organization is located in that city, and is known to have been in contact with SNCC. This letter, by bearing a New York postmark, would divert attention from local SNCC associates as to author of the letter.

III. OBJECTIVE

It is known to the Atlanta Division that although [REDACTED] in Atlanta, [REDACTED] do not get along too well and any letter coming to [REDACTED] department for [REDACTED] would, in all probability, be opened by either [REDACTED]

It is believed that [REDACTED] need for money, coupled with the desire to get back into SNCC, would cause them to approach [REDACTED] for an explanation of the inference contained in the letter or else request [REDACTED] active support in requesting reinstatement in SNCC. Should [REDACTED] fail to cooperate, [REDACTED] could obviously attempt to discredit [REDACTED] and thereby diminish his [REDACTED] of the SNCC Office in Atlanta.

IV. RECOMMENDATIONS

It is requested that the above letter be approved for preparation and executed by the Atlanta Division at the earliest possible date. Information copy forwarded to New York as proposed for site of mailing of above letter in event Bureau approval obtained for Atlanta to prepare the letter.

The Atlanta Office of the Student Nonviolent
Coordinating Committee (SNCC) is in financially poor
condition. SNCC operations in Atlanta are under the
a lengthy letter setting forth the financial need of
a organization which he called Afro-American Society
of Greater Atlanta (ASGA). ASGA is actually a cover
name for the Atlanta SNCC organization. [REDACTED] sent the
National Episcopal Church (NEC) in New York City the above
letter requesting a grant of \$30,000. It has been reported
that NEC favorably considered this request and sometime in
January, 1969, made a \$34,000 grant to ASGA. The Atlanta
Division advises that the grant is known to only a limited
number of SNCC associates in Atlanta and that [REDACTED]
intended use of this money is not known. [REDACTED]

What is going on with the money from New York for the new organization? Sure would like to get in and help spend some of that cash. Keep me in mind boy.

Atlanta is of the opinion that [REDACTED] would open this letter and use the information contained therein to force [REDACTED] to assist them in regaining admittance in SNCC ranks and/or discrediting [REDACTED]. The program had been scheduled for 9:30 p.m., 2/6/69, but the advertising department pointed out that scheduling the program for 9:30 p.m. on Thursday would conflict with the "Dragnet" program which has a high rating in the Tampa area.

[REDACTED] advised that the personnel associated with "Wild Grapes" are pleased with the rescheduling to 7:00 p.m. on Sunday evening as it is felt that the new day and time will afford greater viewing coverage.

COUNTERINTELLIGENCE PROGRAM
BLACK NATIONALIST - HATE GROUPS
RACIAL INTELLIGENCE
(NATION OF ISLAM)

As the Bureau is aware, in the last two years Miami television station WCKT, [REDACTED] has produced three special documentary films with the cooperation of the Miami Office of the FBI, under our various counterintelligence programs. These three films dealt with the Ku Klux Klan, the National States Rights Party and more recently the "New Left."

These efforts on the part of WCKT were well received in the community and have been most instrumental in keeping the activities of these groups constantly before the public and has gone a long way in diminishing their effectiveness in the South Florida area.

These three documentaries were produced by Channel 7 with the approved counterintelligence assistance of the Miami Division and these are considered to be most outstanding counterintelligence accomplishments.

[REDACTED] WCKT, Miami, has expressed an interest and made inquiries relative to the possibility of doing a similar documentary involving the activities of the Nation of Islam (NOI) in the South Florida area. The Miami Office feels that this offers an excellent opportunity for the production of a film similar to those previously produced and most certainly could go a long way in bringing the activities of the NOI to the attention of the general public and in that manner drastically curtail their activities, particularly in Dade County.

REC-2 100-88

As the Bureau is aware, there is a wealth of public-type information that could be made available as investigative leads, etc., to assist Channel 7 in the production of such a documentary. Over the years, the Bureau has brought to the attention of the field various public publications and other material which would be of great assistance in such an undertaking.

Locally in the Miami area, there are certain aspects of the operation of the local Mosque (Mosque #29) which would be of interest and lend itself to such an undertaking. These avenues of possible inquiry involve the fact that the Mosque here in Miami has purchased a sizable former church for approximately \$160,000, which makes quite an impressive edifice. This, of course, would lend itself to a documentary-type program. Additionally, CASSIUS CLAY (MOHAMMAD ALI) allegedly contributed substantial sums of money to the NOI in Dade County, which likewise would be of considerable public interest. Recently, information has been developed in connection with the NOI in Dade County that two female members, who are active in the local NOI Mosque, are both school teachers in the Dade County School System. Here again, the exposure of such activities would be most enlightening to the general public and could go a long way toward hampering future activities of the local NOI group.

Another aspect of considerable interest, of course, would be the finances of the NOI, noting that they take considerable sums from each member on a weekly basis and contribute nothing to the general welfare of the black community or the local NOI membership.

If such an undertaking is approved by the Bureau, the Miami Division can assure of the complete cooperation and security as far as Channel 7 is concerned and this Division is confident that such an undertaking could be successfully carried out without any embarrassment to the Bureau and the Bureau's interest in this matter would not in any way be revealed.

The Miami Division requests that authority be granted under the Counterintelligence Program to conduct further discussions with [redacted] relative to the production of such a documentary film, after which more precise information will be given to the Bureau relative to identifying what documents and/or information will be made available to [redacted]. In this connection, the Miami Division solicits any suggestions the Bureau may have in connection with available material which would lend

itself to being used in the production of such a
film.

Authority is granted to enter into preliminary discussions with [REDACTED] WCKT-TV, Miami, Florida, relative to the production of a documentary film concerning the Nation of Islam (NOI). Insure [REDACTED] understands, as in the past conversations with him concerning counterintelligence activities, that Bureau cooperation with him is strictly on a confidential basis.

In your conversation with [REDACTED] stress the importance of exposing and ridiculing NOI money-making schemes which milk members in order to fill the coffers of Elijah Muhammad who lives in elegance amid palatial surroundings. In this regard, seek out public source material which will expose the NOI practice that requires a member to purchase large quantities of NOI newspapers even though the member may not be able to sell them.

Keep the Bureau advised of the progress of your talks with [REDACTED] and his progress relative to the production of the documentary film. Submit to the Bureau, for specific approval, any public source information you desire to furnish to him.

Brothers Fight for Black Republic

More than 40 years ago, Marcus Garvey stirred hundreds of thousands of American Negroes and attracted several million dollars in donations with the idea of a mass return to Africa. His movement flourished for a time, but ultimately failed.

Today another force is trying to lead black people out of white America. Founded by Pontiac attorney Milton Henry, his fiery brother Richard also of Pontiac, and a collection of embittered black intellectuals from the urban North, the Republic of New Africa (RNA) wants to take its people south.

Its demands: Five southern states and \$400 billion in reparations for three centuries of black suffering.

The RNA, rooted in the cold, final logic of secession, would seem to be a movement of powerful portent for American race relations. If so much of its strength were not merely on paper in the fluid rhetoric of its founders.

During 1968 the republic received substantial publicity in national publications and on television. But despite the attention focused on RNA and its aims, its following and finances are judged meager at best by those who have watched it closely.

THE HENRYs will not talk numbers and dollars within the republic, but some outsiders close to the operation estimate its national following at perhaps less than a hundred, its Detroit support as little as a dozen or two.

One Detroit area lawyer labels the republic "a joke." It isn't quite that, nor is it just a passing aberration of

black passion. Reparations and secession or evacuation from the United States have been on the minds and tongues of radical black people for years.

The men of RNA may be right when they say more black Americans than ever before are convinced further attempts at co-existence with white men will solve nothing. Those who oppose the RNA, black and white alike, are inclined to concede its potential appeal to separatist-thinking black Americans.

As long ago as the 1920s, Garvey's movement was substantial for a time. But Garvey was a better promoter than are the Henrys.

The two brothers have been involved with organizational protest since the 1940s, under such title as the Group of Advanced Leadership (GOAL) and the Malcolm X Society, sustained largely by their own press consciousness and volatility.

But they never have been able to muster a large following.

Milton Henry — Brother Galdi, first vice-president of RNA and the top republic officer in the United States — is 49, a graduate of Yale University law school, a son of the 1946 National Urban League Family of the Year, a former Pontiac city councilman and one of the better trial lawyers in southeast Michigan. He is a successful man by all the standard measures.

His brother and alter ego, Richard — Brother I mar, RNA minister of information — is 38 and until very recently was a technical writer at the Detroit Tank Arsenal. Both are well educated, thoughtful and articulate.

Both want to secede from the union and take with them as many black people as they can.

They claim that their movement is strong and growing.

THEY WILL BE forcing their own hand next month. Sometime around the Feb. 21 anniversary of the assassination of Malcolm X, they say the RNA will conduct a secession plebiscite among the black people of Brooklyn's troubled Ocean Hill-Brownsville district, scene of New York's bitter fight over community school control.

"Ocean Hill-Brownsville is ripe for a separation vote," Milton Henry says.

After that plebiscite, which the Henrys expect to win, "there is a good chance the American government will be talking seriously to the republic before the end of 1969," Richard Henry claims.

His brother says: "We've never given our historical consent to be governed by the United States. When we can demonstrate this by a fairly conducted plebiscite, then other nations of the world will join us" in applying pressure to Washington and perhaps the World Court and United Nations General Assembly.

RNA thinks logic alone should be sufficient to convince white Washington that a separate black state is an answer to many problems. But they also say their followers will fight guerilla war if that is what it takes to gain the five southern states in which they would form a black North American republic.

RNA has formed a cabinet and developed a national conference attracting about 300 secessionist black radicals to Detroit in March. It is trying to administer its own tax system, theoretically collecting three percent of the corporate and personal earnings of its followers.

IT SAYS IT has an armed, trained military group, the Black Legion. But the legion's effective size is questionable.

Most of all, RNA has a body of rhetoric which asserts that the creation of a black republic on once-American soil is neither a paranoid fantasy nor a very unusual idea, but a viable answer to racial conflict.

"We are no different from the French Canadians, the northern Irish or the Jews in Central Europe," Milton Henry says. "And I don't see anything sacred about this country in its present geographical form . . . If the United States has any justification in paying the American Indians for their land . . . Indeed, the same argument has to obtain for black people who lost their lands in Africa and worked the land here."

The Henrys don't like the Garveyist idea of a return to Africa — for some logistical reasons such as the expense of mass transplantation — but for some philosophical reasons as well.

"We don't mind accepting the role of de-niggerizing and re-Africanizing black men, but the black man's problems here shouldn't be reflected back on another part of the world," Milton Henry says.

"We feel there are reparations due from the United States. Some nationalists say we should take the whole southeast quadrant of the country."

The states the RNA wants are Louisiana, Mississippi, Alabama, Georgia and South Carolina. If negotiations with the State Department are not sufficient, the RNA has an alternate plan for taking over the Old South.

It involves sending Black Legionnaires to selected southern counties with black majorities, to be sure enough votes are mustered and counted to elect black sheriffs carrying the power to create "legitimate military force" by appointing deputies.

Then the legion would hopscotch through the five states, working through the electorate to establish a political hold on the land they want.

Milton Henry says there are enough men and arms in the Black Legion to pull it off.

RNA HAS conducted some

arms training through Detroit's Fredrick Douglass Shooting Club, but Henry says the preparations are only defensive in anticipation of trouble from southern whites.

"No one likes war," he says. "Some say the Prussians did. I don't ever believe that. And I'm not any damn Prussian. I'm an African. I'm not interested in war. I'm interested in life."

The Henrys, who stepped from middle-class comfort into the vanguard of their own brand of revolution, brush aside suggestions that other skilled, successful black men, comfortable in the American system, will not follow them to New Africa.

"The movement can't go back," Richard says. "Most black people eventually will see the value of nationhood. The support we have among those people who aren't now separatists will be demonstrated very soon."

They repeatedly liken New Africa to Israel. Richard Henry says: "After the Israelis opened their medical school, they began producing some of the best papers in the world. The Jews not only sent money, they sent talent."

Talent like that would flow to New Africa as well, they say, and they don't care what color their professionals might be so long as they can be trusted.

BUT THAT WORD "trust"
is beginning to turn back on
the republic in recent weeks.

An anonymous letter was
circulated among some De-
troit RNA members last
month, suggesting that money
collected to buy southern land
and finance the legion might
simply be paying for Rich-
ard Henry's traveling ex-
penses.

Since leaving his job at the
arsenal, Richard says he has
been working full-time for the
republic."

He and Milton both have
made numerous trips on RNA
business, one to an African
meeting with self-exiled black
radical Robert Williams, no-
minal head of the RNA, now
spending most his time in Red
China.

(Mount Clipping in Space Below)

How Success Paved Path To Secessionist Movement

What carries a man to the psychological border of the land he thought was home, and what makes him step across?

Milton Henry can't name a particular day when he passed over the line. He only feels that despite professional success, something has been desperately wrong with his life, and that flaw is far from unique among men of his color.

He grew up in Philadelphia, son of a postal employe and one of 11 children, totally committed to the mainstream of American life and behavior.

"Every middle-class value — our mother and father preached and taught it," Henry says. "Get in the system, obey all the laws, do things to help all people, be a success as an individual."

"My mother would fly the flag on the Fourth of July. She made it a sacred holiday. I remember my mother taking us through Independence Hall."

"All the myths — we had it all."

In 1941, at 22, Henry enlisted in the U.S. Air Force and volunteered for flight training. It was in the segregated, wartime military that the facts of being black began to fall hardest on him.

"I had some terribly traumatic experiences, especially in the South," he said. "I remember it was Nov. 11, 1941, Armistice Day, when I arrived in Montgomery, Ala. We had a parade, and I could hear the white people on the sidewalk saying: 'Look at them niggers. They sure look good.'"

Henry said the men of his segregated unit at Maxwell Field found themselves shut out or made unwelcome in the base's recreation areas and dining facilities. "I had some terrible fights," he said.

ONE OF THE WORST occurred on a Montgomery bus. "The driver told me to move to the back. I couldn't do it. We argued, and I gave him a bust on the chin. Then that rascal went under the seat and pulled out a pearl-handled gun." Henry grappled with him and finally was helped by some British cadets in training at the same base. "If they hadn't come, I guess he would have put a bullet in me right there," Henry said.

In 1943, Lt. Henry was transferred to Selfridge Air Base near Detroit and while serving with the 553d Army Fighter Squadron, became involved in a series of disputes with officers finally leading to a court martial and dishonorable discharge.

The charges were being absent without leave and showing disrespect for superior officers. One officer testified at the court martial that Henry told him: "All revolutions have been initiated by minorities. Remember the French revolution and the Russian revolution. In each case it was the minority who ruled, and some day I, too, will be in a position to dictate."

Henry was 25 when he was bounced from the service. "I guess the Army should have thrown me out at that point," he says with a slight smile. "I was ready to get in that plane and go up and just unload on the first city I came to."

After the discharge, a friend persuaded him to apply to Yale University law school rather than pursue the path to the ministry that he had envisioned.

Excelling in his entrance examinations, Henry was awarded a scholarship and worked in school dining rooms to pay his way through.

DURING HIS schooling he was Connecticut state chairman of the 1948 Henry Wallace presidential campaign and was active in a black crusade to end military segregation, which was finally ended on orders from President Harry Truman that year.

After graduation, he returned to Detroit. "It was a beautiful city in the 40s. I liked the way black people lived, in open neighborhoods, in single-family homes. It's not much like that now."

He took up criminal-law practice and later moved to Pontiac, where he was Oakland County chairman of the National Association for the Advancement of Colored People and for six years was a member of the Pontiac City Council.

It was hardly a peaceful time, though. His abrasive courtroom style and open race consciousness irked judges around the state. He was cited for contempt a number of times and accused of fussing with police officers, although never convicted of a crime.

He became known, especially to the black accused, as an effective and hard-working attorney.

Then, six years ago, Henry and a group of men interested in African housing development traveled to Africa.

"My whole life changed then," he said. "I found myself. Something mystical happened."

"I got off the plane in Dakar and instead of white people trampling me the way it had been in New York, there were black people trampling me. Everyone was black—immigration, the police the whole thing. I almost cried. For the first time I saw black people being a part of things."

HENRY TRAVELED through a half-dozen black nations on that trip.

"In Liberia we saw huge rubber plantations, and the people there were black people who looked just like the people back home. And we were there," he said.

"In Ghana I took off my western clothes and put on robes and sandals and walked the beaches. Maybe life was like that several centuries ago. I was asked whether I had any idea what tribe I had come from. I couldn't say. It left me with an empty feeling because the man who asked me could relate his whole tribal background."

"You start analyzing all you see, and you find the totality of a civilization."

HE HAS BEEN back to Africa four times since then, once in the company of the late Malcolm X. He has met with African governmental leaders, has walked the land.

Milton Henry does better than most black people in the U.S., yet he has become secessionist, a revolutionary.

He insists: "No black man in this country is rich enough to be free. The hotels on occasion still are booked up to Barry Gordy (millionaire founder and head of the Motown recording empire)."

"I could do without a television and a floor in my house if I could have the freedom of the people I saw in Tanzania living on dirt floors."

DATE: 1/22/69

Reurlet, 1/7/69; Chicago letters 12/24/68 and 1/14/69.

ReBulet has been thoroughly studied and discussed by the SAC, the Supervisor, and Agents familiar with facets of the NOI which might indicate trends and possible future direction of the organization. The Bureau's concern is most understandable and suggestions appreciated.

Over the years considerable thought has been given, and action taken with Bureau approval, relating to methods through which the NOI could be discredited in the eyes of the general black populace or through which factionalism among the leadership could be created. Serious consideration has also been given towards developing ways and means of changing NOI philosophy to one whereby the members could be developed into useful citizens and the organization developed into one emphasizing religion - the brotherhood of mankind - and self improvement. Factional disputes have been developed - the most notable being MALCOLM X LITTLE. Prominent black personages have publicly and nationally spoken out against the group - U.S. District Court Judge JAMES BENTON PARSONS being one example. The media of the press has played down the NOI. This appears to be a most effective tool as individuals such as MUHAMMAD assuredly seek any and all publicity be it good or bad; however, if the press is utilized it would appear it should not concentrate on such aspects as the alleged strength of the NOI, immoral activities of the leadership, misuse of funds by these officials, etc. It is the opinion of this office that such exposure is ineffective, possibly creates interest and maybe envy among the lesser educated black man causing them out of curiosity to attend meetings and maybe join, and encourage the opportunist to seek personal gain - physical or monetary - through alignment with the group. At any rate it is felt such publicity in the case of the NOI is not overly effective.

As the Bureau is aware the NOI several years ago organized Progressive Land Developers, Inc., and more recently United Dynamics Corporation, both incorporated in the State of Illinois. Both have well known NOI officials as officers - ELIJAH MUHAMMAD is not shown as involved in either. The professed purpose of these groups is economic in nature and gives no appearance of being religious in nature.

Activity by these groups was most limited until the past year to year and one half ago. Since that time the NOI has invested heavily in business properties in the Chicago area and in land in Michigan and Georgia. It was noted publicity regarding formation of these two corporations by the NOI was limited throughout the United States - only two articles have appeared and both dealt briefly with Progressive Land Developers, Inc. buying land in Michigan. Both articles were published in cities other than Chicago.

[REDACTED] contacted this office and volunteered data to the effect he had been surveying NOI business ventures and wanted to write an article about same but needed assistance. Bearing the above facts in mind re the two corporations, the Bureau was requested to give permission to furnish [REDACTED] with pertinent public record material relating to ownership of these non-religious ventures with emphasis on the fact it appeared membership monies were possibly being misused. The Bureau granted permission and [REDACTED] was given all possible assistance. At this time he is working on his article and assures this office he will advise us of the article and its publication. Re Chicago letters set forth full details. It is hoped that publicity emphasizing NOI non-religious ventures will cause factionalism among the leaders and discredit them among the black community and the organization's membership.

ELIJAH MUHAMMAD is sole leader of the NOI claiming to have been so appointed by ALLAH. He further claims to be the only divinely appointed leader of all black people in America. His "gimmick" in creating an aura of mysticism

has been proclaiming the black man to be God and the future ruler of Earth; branding the white man as the Devil whose future lies in his destruction by ALLAH through the forces of nature; and a call for a separate state or territory of their own or equal justice and equal opportunities in the United States if they cannot have separate territory. These "gimmicks" would be most attractive to many black people in the lower economic strata who would want to hear the white man condemned and castigated because of their own plight. Of course, the development of a seemingly large following would also attract the opportunist - a black man who would profess to believe MUHAMMAD's teachings but is really out solely for personal gain. As is apparent, MUHAMMAD has created through the above an almost fanatical devotion to him on the part of his following; however, this devotion and subservience is purely voluntary as members are specifically instructed to leave if they cannot follow all of the "Laws of Islam". The turnover is constant and while many have left because of the NOI's demands they still believe in his teachings.

ELIJAH MUHAMMAD, as far as is known, has not designated, or even shown a preference for, an heir apparent. With two exceptions the national leadership is composed of members of his family. All are dependent on MUHAMMAD and the group for their livelihood. Over the years various members of the "Royal Family" have been in the favor of MUHAMMAD only to fall by the wayside because they dared question MUHAMMAD's edicts. A prime example of this would be WALLACE MUHAMMAD who was until about 1964 considered most likely to be the heir apparent and MUHAMMAD himself indicated ALLAH might be communicating with WALLACE. Of course, WALLACE subsequently was suspended by his father because he refused to believe W. D. FARD was ALLAH. It is still believed WALLACE MUHAMMAD is the only member of the "Royal Family" who could give proper spiritual guidance to the organization. No one has emerged as a successor to WALLACE insofar as this sphere of activity is concerned.

Recent indications are that HERBERT MUHAMMAD is closest to MUHAMMAD. He is self-stated to be MUHAMMAD's personal aide. He has illusions of running the NOI from "behind the scenes" when MUHAMMAD passes on.

There is no indication HERBERT himself will be able to guide the flock spiritually nor is there any indication as to how he plans to accomplish same. He is interested only in such financial gain as the membership will make available to him.

In our opinion there is no one presently in the NOI who will be able to replace MUHAMMAD and the mystical spell he is able to cast on some members of the black race. This must be done to insure survival of the group.

Further, there is no means at present to determine who will succeed MUHAMMAD. Past experience has shown he does not particularly trust any of his sons or daughters and they could be in favor one day but completely in disfavor the next. HERBERT MUHAMMAD is as susceptible to this as any.

It appears the NOI is headed on a collision course for a factional split after the death of MUHAMMAD. The power struggle could well develop among members of the "Royal Family" and could well involve some of the more prominent NOI ministers who could well align themselves with a certain member of the "Royal Family" or could entertain illusions of "ruling" a segment of the NOI. It is not beyond the realm of possibility that anyone of MUHAMMAD's more prominent ministers could make a power play on MUHAMMAD's death. At present, however, MUHAMMAD seemingly has all of them totally subservient to him.

As mentioned earlier, the spiritual aspects of the NOI must be maintained to keep the group going. It is recalled that when MALCOLM X LITTLE defected and later was murdered, many dissenting NOI members sought out WALLACE MUHAMMAD for spiritual leadership. When WALLACE MUHAMMAD returned to his father on another occasion and was presented to NOI members gathered at an Annual Muslim Convention in Chicago he was wildly acclaimed. It is felt WALLACE MUHAMMAD is still warmly thought of by his father as he is the only son or daughter who is not monetarily motivated. It is known MUHAMMAD still asks about WALLACE.

It is further known WALLACE is adamant in his belief W. D. FARD is not ALLAH. WALLACE is acknowledged clandestinely by members of the "Royal Family" and is friendly with many of them. He is thought to be held in esteem by NOI members despite his suspension. It is not beyond expectations that he could be sought out for support in a power play by a member or members of the "Royal Family" or by various NOI ministers to be a figurehead or the leader. His beliefs are the brotherhood of mankind and self improvement with no hate for other men.

WALLACE MUHAMMAD is well aware of this and maintains his contacts.

The above is pure speculation but factual data can only be obtained as time passes and events occur. At this time proper courses of action can be planned and implemented.

ReBulet refers to legal action against the NOI on the death of its leader and asks such questions as
1) Does MUHAMMAD have a will? 2) Is the NOI incorporated?
3) In whose name and where are NOI bank accounts? 4) In whose name are NOI assets such as mosque buildings, MUHAMMAD's home, etc.?

There is no information available as to whether or not ELIJAH MUHAMMAD has a will. This would be information available only to MUHAMMAD and, possibly, an attorney.

MUHAMMAD's Temple No. 2 of the Holy Temples of Islam is shown as being an Illinois corporation at the Cook County Recorder's Office, Chicago; however, there is no evidence of same on file with the Secretary of State, Corporate Section, Springfield, Illinois.

Bank accounts maintained by MUHAMMAD's Temple No. 2 in Chicago are in a state of complete flux at present. Accounts both savings and checking have been maintained for several years in the name of MUHAMMAD's Temple No. 2 at the South East National Bank (all having balances of under \$1,000.00); at Continental Illinois National Bank and Trust Company of Chicago (all now closed); at the American National Bank and Trust Company of Chicago (unavailable due to bank policy). ELIJAH MUHAMMAD was not shown as being authorized to draw on any of the above accounts. Rather those

authorized to draw included officers of the Temple - any 2 of 4. Only one bank account was located for ELIJAH MUHAMMAD. It was a savings account containing less than \$5,000.00 and was in the name of ELIJAH and CLARA (his wife) MUHAMMAD.

NOI properties have been closely followed by this office insofar as title holder, evaluation, etc., are concerned. MUHAMMAD's Temple No. 2, including the University of Islam No. 2; is in the name of MUHAMMAD's Temple No. 2; various business ventures purchased by the NOI are in the name of Progressive Land Developers, Inc., or United Dynamics Corporation (both described above) as are land purchases in Michigan and Georgia. So far as can be determined NOI properties are in one of the above names. The exception to this are MUHAMMAD's residence at 4847 South Woodlawn; his residence at 2118 East Violet Drive, Phoenix, Arizona; and a residence at 1122 Staples Street, N.E., Washington, D.C., which are in the name of ELIJAH and/or CLARA MUHAMMAD at present.

Chicago's experience insofar as MUHAMMAD's legal advice is concerned dates back to 1959 at which time ELIJAH MUHAMMAD on legal advice tempered his teachings against the white man and the government, both synonymous in NOI teachings, to avoid prosecution. At that time he demphasized religious aspects in the NOI and commenced emphasizing economic benefits to be derived by the black man who joined the organization. It appears, based on NOI land and business ventures in the past two years, MUHAMMAD is implementing monies accrued over the from the membership and from appreciation from properties sold. His success or failure in these business and farming ventures remains to be determined as they have only been in effect for a year or so.

Over the years MUHAMMAD's legal involvements have been closely followed. He has been represented by numerous attorneys and evidently seeks out advice on new endeavors. IRS has reviewed the NOI and some of its officials but results were negative. Income Tax Returns filed by such individuals as HERBERT MUHAMMAD, who made substantial money as manager of CASSIUS CLAY, were reviewed and no discrepancies were noted. It was noted attorneys executed these returns. Perhaps the most significant factor is recognition of the NOI as a religion by USDC and subsequent court, both Federal and State, approval for NOI services in Federal and State prisons.

to the many scandalous allegations relating to political appointees and their associates in this area. It is not deemed advisable to approach such a person as the Bureau would be in an extremely embarrassing position if there were the slightest leak that the Bureau was involved in probate of any estate.

Chicago, as the Bureau is aware, has always been on the alert for methods by which the NOI could be directed or disrupted. As is evidenced by the present cooperation with ██████████ this policy continues.

Chicago continues its contacts with its sources whose identities are known to the Bureau and feels these sources will be of possible extreme value at the time of the demise of MUHAMMAD. At this time appropriate recommendations will be made.

SCLC Denies James Orange 'Driven Out' of Phila

Rev. King-Founded Group Closes Its Two Local Offices

Spokesman for the Southern Christian Leadership Conference, had been "run out of town" by local militancy. An informed source told the Tribune that Rev. Orange left town last Tuesday night, presumably headed for Atlanta.

The source went on to say that the reason for Orange's alleged "exodus" was "threats from a militant group and their charges that he had 'misled black people and showed disrespect and disregard for the goals of the late Dr. Martin Luther King.'"

OFFICES CLOSED

Local chapters of the Southern Christian Leadership Conference (SCLC) in Philadelphia and Atlanta have closed their offices. The group's two offices, one on Diamond St. and the other on Girard Ave., were closed. She said that Rev. Orange had been called to Atlanta for a meeting of conference. She added that no SCLC person would be in the area for some time. That, she said, is too cool.

"He (Orange) approached us before the Poor People's March and asked the United Veterans to help get local people to help them out. They also asked us to help raise funds. We agreed and Orange promised us one-third of the funds raised to help our organization out."

WANT MONEY

Butler said reports of the amount raised varied, but it was "either \$26,000 or one-half million dollars."

"They say they raised \$6,000. We say, and our figures show that it was \$200,000. If you want to accept their figures, it was \$2,000. By our figures, it was \$175,000, and we want to get it."

Butler said he could not say personally about the matter. "We are very busy," he said. "The fact is that we are very busy."

Atlanta, but his whereabouts are unknown. Important SCLC national board members are not in the city. Rev. Ralph Abernathy is hospitalized with pneumonia. Rev. Andrew Young and Dr. William Rutherford are reported to be in New York or Washington. Meanwhile, no one would comment on whether Rev. Orange would return to Philadelphia and when. Miss Cusumano said, however, that SCLC programs would continue whether Rev. Orange was here or not.

WHAT OTHER EDITORS SAY

Time Now To Speak Up On Behalf Of America

(Reprinted from
the Crisis,
official magazine of the
National Association for the
Advancement of Colored People)

The deepening schism within the Negro community over tactics and goals, gleefully fostered by insensitive and irresponsible news media, is headed toward a major internal crisis requiring each of us to stand up and be counted. Differences among black folk in this country are not new, but a new ingredient has been added — the attempt by a small minority of black extremists to force compliance with its views and tactics. This nihilistic minority professes disdain for all "white" values while at the same time invoking and utilizing, as instruments of controversy, the worst practices of the most benighted stratum of white society, to wit, obscene name-calling, threats, intimidation, suppression of opposing views, and violence.

The emergence of this swaggering band of black extremists demanding abandonment of democratic methods and goals and a reversal of the trend toward integration must be met head-on by the vast majority of Negroes who reject the minority's tactics and goals. To be sure, the new mood has been generated by white America's historic racism. In turn, the new black mood nurtures further white racism...

On our part, as on the part of white folk, there is urgent need for strong and unequivocal re-affirmation of our commitment to the democratic

process as a means of attaining, here in our homeland, full, equal and unfeathered rights for America's 22 million black folk. This means a repudiation of the nihilism of the extremists who are shrilly and insistently espousing apartheid, racism, including anti-Semitism; intimidation and violence.

Most fatuous of the extremists' exhortations is the call for "black revolution" — the seizure of power by the Negro minority. Any revolution remotely possible in this country at this time would not be one that advances the position and cause of Negroes. Rather it would be a revolution of the right suppressing not only the black community but also curtailing the basic liberties of the total society. . . .

Notwithstanding the evidence that the Negro masses remain committed to the program and tactics which have brought substantial gains in the struggle for equality, the voices within the Negro community which publicly express this majority view have been few and often, lonely. Partly this has been because of a tendency on the part of the news media to by-pass spokesmen for the majority and to project the minority spokesmen as the authentic voices of the Negro community. There is the additional factor that responsible leaders who speak out against the extremists have traditionally been reluctant to speak out publicly in opposition to other black spokesmen.

But the time has come for speaking out loud and clear lest the entire race be branded as hate-mongers, segregationists, advocates of violence, and worse. The silent majority must let its views be known not merely in polls but also in

print on the radio, and via radio and television. The time for silence or muted voices is past. The extremists must be answered promptly and for brightly in the name of the majority. Their racism and anti-Semitism condemned and repudiated. The infantilism of their "governments in exile" exposed and scorned. Their advocacy of Jim Crowism rejected as retrogressive. Their suicidal call for violence disavowed.

To make the record clear, let us repeat again and again so that none need be unaware of the Truth: Black America rejects and condemns separation, racism, intimidation, suppression of free speech, and violence. Let it be known that the preachers of hate, the defeatists afraid to compete in the open market, the name callers who substitute epithets and slogans for reason, the exhorters who summon Negro youth to death in futile shoot-outs with the police and the military — let it be known that these media-created "leaders" are not our spokesmen.

Dissent, protest and militancy, yes. Intimidation, disruption, suppression of free speech, extremism and violence, no!

The time to speak up in no uncertain terms, to rally the silent black majority to a constructive program of responsible militancy and resistance to extremism, is now. Tomorrow may be too late.

Wilkins Raps 'Black Studies' Drive, Says NAACP May Sue

NEW YORK (UPI) — The drive for black studies programs and black student dormitories on college campuses was described as a "Jim Crow" concept yesterday by Roy Wilkins, who said he would go to court if necessary to block their implementation.

Wilkins, head of the National Association for the Advancement of Colored People, said demand for "autonomous" black studies programs and dormitories for blacks only was tantamount to setting up of "racially based Jim Crow schools" and that NAACP lawyers believed the use of tax money for this purpose was unconstitutional.

Wilkins, who spoke to about 200 NAACP representatives at the 60th annual corporate meeting of the association, said he was not against courses of black studies being taught in high schools and colleges. In fact, he said, the NAACP had supported such programs.

But, Wilkins said, "We are opposed to their (black students') dormitory proposals and their autonomous black studies programs. If we can't find a plaintiff (to bring suit) ... we will sue on the basis of our belief that tax funds cannot be used" to create segregated facilities.

Negro students and white sympathizers at a number of colleges and universities across the country have clashed with administrators on the dormitory and autonomous studies issues.

Wilkins, who in the past has called for Negroes to oppose black extremism, said Negroes, had suffered "too many heartaches and shed too many tears and too much blood in fighting the evil of racial segregation to return in 1969 to the lonely and dispiriting confines of its demeaning prison."

He warned that "if some white Americans, torn and confused by today's clamor of some black students, should accede officially to the call for separate dormitories and autonomous ra-

cial schools within colleges and universities, there will be court action to determine anyone's right to use public tax funds to set up what are, patently, Jim Crow schools."

The 67-year-old civil rights leader said that Negroes live in

a white world and that "Negro boys better learn what the white boys are learning."

If young black students want to help their race advance, Wilkins said, they should study harder, get their degrees and go out to bring advances.
